BEGINS WORLD FLIGHT IN HUGE METAL PLANE

Will Is Sure Dry Law Is All We Have On Europe

(Special To The News)

SANTA MONICO, Cal., Aug. 1.—All America used to have to do to win the Olympics was to buy some steamer tickets over there.

The thought never entered our head that any nation could beat us in [illegible] sports because we were the first ones that specialized in one event and had trainers. Now they have all learned and are doing that so we are no greater than any other nation, after they get on to our tricks.

Same way with our mass production and buying on credit. They are getting on to that now, so it looks like prohibition is about all we have on 'em.

Yours,

WILL.

PA NEWC OBSERVES

Robert C. Love, New Castle banker, who arrived home from New York yesterday, in his own plane, will become New Castle's first aerial commuter to New York, it is likely. By use of the plane, he will be enabled to leave New Castle in the morning, lunch in New York, transact his business, and be home again in time for supper. The world do move!

There is need for another campaign against dogs running at large in this city. Reports are frequent of children being bitten, and there are many dogs at large on the streets. It's a nuisance enough to keep dogs in the city when they are kept tied up, let alone allowing them to wander at large.

Some evidence of the damage done by the continuous rains of the month of June can be noted in cornfields about the county. There are many fields where the weeds have got the better of the corn, due to the fact that the fields were so muddy that the farmers couldn't get the machinery into the fields to "work them." There will be a big loss on many of the cornfields.

In the work of repairing the bridge over the Shenango at Pulaski a notable improvement is seen. Four metal strips have been laid in the flooring of the bridge, which provide tracks for autos passing both ways across the bridge. It is a wonderful improvement over the old bumpy planking.

Indications are that the municipal golf course program is to be carried to completion. The backers of this project, leaders in many lines in New Castle, are thoroughly sold on the idea, and councilmen are taking steps to carry out the plans.

Since the New Wilmington-Pulaski road has been taken over by the state highway system, work has been done on the road, building it up in the centre and lowering the gutters. The work has been done to an unusual degree, the ditches being very low on both sides of the highway, and the centre of the roadway unusually high.

Good progress is being made on the construction of the hangars at the new airport near Parkstown corner on the Youngstown road. The hangar is under roof, and is large enough to provide for half a dozen planes, it appears from a hasty view.

Gas stations being erected now are being built for permanence, and it might be remarked, for beauty. There is a new one, at the intersection of the Edenburg and Youngstown roads, two or three miles out of this city, that is laid out in a most attractive fashion. The building is a fine structure, and it is being surrounded with most attractive shrubbery and trees. It is a far cry from the early days when a gas station consisted of a tank in the street and a pump at the curb.

It takes very little to arouse the curiosity of New Castleites. Yesterday at noon, the steel mill whistle blew for a period of several minutes. The situation developed so much curiosity that the telephone lines to The News were blocked with phone calls from all parts of the city because of persons calling up to find out what was the cause. The whistle was stuck and it required several minutes before it could be shut off, steel mill officials reported.

Sectional rains are queer things. On the east side Tuesday evening, it poured. But on the north hill, as Pa Newc found out, it only sprinkled.

At an intersection of an alley and East Washington street it happened Tuesday afternoon. An old woman, perhaps 60 and perhaps more, was walking on the crossing. A truck started out of the alley, not blowing

Coolidge Ending His Fifth Year In U. S. White House

Thursday Marks Close Of Five Years Of President Coolidge's Term

VACATION PROVES REAL WONDER WORKER

Speculation Rife As To Coolidge's Plans On Retirement Seven Months Hence

By GEORGE E. DURNO
International News Service Staff Correspondent

SUPERIOR, Wis., Aug. 1.—Tomorrow Calvin Coolidge will bring to a close his fifth year in the White House. He will spend the day quietly, fishing the Brule river near Cedar Island Lodge, happy in the thought he has but seven months more to spend at the exacting job of chief executive of the nation.

Or at least, so his confidants say, as to the latter. Those members of the executive staff attached to the summer White House detail who are closest to him say that the final acceptance of his decision not to run again and the subsequent nomination of Herbert Hoover have lifted years from him in action and appearance.

Much Improved.

It is certain that the month and a half on the Brule river thus far has worked wonders physically on the president. When he arrived on the 15th of June he seemed underweight, his complexion was pasty and he seemed tired almost to the point of exhaustion. Six weeks of constant fishing and outdoor life on the Pierce estate, however, obviously have put him back on his feet, so to speak. He again tips the scales at his usual 158-160 weight; the sun and wind have tanned his face, and the lines of fatigue are almost wholly disappeared.

In seven months Mr. Coolidge will retire, regardless of the outcome of next November's election. Already there has been much speculation as to the future he will pursue. It has been rumored persistently that he will become chairman of the board of the United States Steel corporation, the story being that J. P. Morgan took the job temporarily when Judge Elbert Gary died on the condition the president take it over when out of office.

Another report has it Mr. Coolidge will tour South America extensively, this story coming from the southern continent rather than from the United States.

Still a third has it he will become president of Amherst, his alma mater, although a new dean was installed only about a year ago.

Man Suffocated By Smoke; Home Damaged By Fire

Williamsburg, N. Y., Man Is Found Dead In Home Following Blaze

(International News Service)

NEW YORK, Aug. 1.—One man was killed in a fire believed to have been of incendiary origin in Williamsburg early today after a policeman and a civilian had rescued 12 persons. The victim was John Donbrowskey of 51 Grand street. His wife was saved.

Donbrowsky was at the window waiting to be rescued by way of a ladder when he suddenly darted back into the burning building, the stairway of which had been cut off. Twenty minutes later firemen discovered his body in a rear room, where he died of suffocation.

Coney Island, famous amusement center, was threatened with destruction in another fire that started in Luna Park. A stiff breeze whipped in off the ocean and proved a boon to firemen. The entire $3,000,000 property might have been wiped out had it not been for this wind, fire officials said. As it was, the firemen threw streams of water on the tindery frame buildings and kept the loss under $50,000.

LINDY SAVES HER FROM DROWNING

The supreme ambition of every romantic girl—to be rescued from a perilious position by Col. Charles A. Lindbergh, was realized for this lucky miss, Miss Beatrice Freeman, of Pasadena, Cal., who, while vacationing at Lake Tahoe, fell into the lake when her canoe overturned. As she floundered helplessly a motorboat puffed up and Lindy, who had been taking a cruise with friends, leaned over the side, and, aided by others, drew her to safety. Then the air hero and his pals placed Beatrice on the nearest wharf, with a warning to be more careful hereafter, and sped away.

English-French Set Up Agreement On Naval Issues

State Department Learns That Compromise On Disarmament Has Been Reached

BAREST OUTLINE IS RECEIVED HERE

(International News Service)

WASHINGTON, Aug. 1.—The state department would be "delighted with any compromise reached between Great Britain and France with regard to further naval limitation, but the chance for anything definite being accomplished before 1931 which would affect the United States, is considered remote in American diplomatic circles. In that year the Washington Naval Disarmament Treaty, which set up the 5-5-3 ratio for capital ships, expires.

The state department has received from its naval attaches at London and Paris only the barest outline of the negotiations which have been going on between France and Britain, during the past year, and has at hand only the background of events. Officials, deeply interested in Sir Austen

Four Millions For Campaign

Such Is Estimate Of G. O. P. Needs For Coming National Campaign

(BULLETIN)
(International News Service)

WASHINGTON, Aug. 1.—The Republicans will spend approximately $4,000,000 in the Hoover campaign this year.

This figure was estimated today by Hubert Works, national chairman, after a conference with J. R. Nutt, Cleveland, national treasurer; Jeremiah Millbank, New York, eastern treasurer; Rep. Franklin Fort, New Jersey, national secretary, and H. L. Gutterson, executive secretary.

The Democrats have estimated their expenditures at between $3,000,000 and $3,500,000. These sums would result in the most expensive campaign in history.

Obregon Slayer Being Grilled

Toral Undergoes Relentless Questioning; Grilling Is Continued

MAINTAINS NO ONE ELSE SHARED CRIME

(International News Service)

MEXICO, CITY, Aug. 1.—Despite the fact that Jose De Leon Toral, the young assassin of president-elect Alvaro Obregon reluctantly admitted at his preliminary court examination that he had been "indirectly influenced" in his determination to slay Gen. Obregon by Conception Acevedo De La Lata, mother superior of Espinta Santo convent, the nun remained impassively calm today, reiterating her denial of guilt.

Three In Chief Roles

The preliminary court inquiry, which is being conducted by Judge Alonso Aznar Mendoza has placed the following three persons in chief roles of Mexico's latest political melodrama:

Toral, 27 year old religious fanatic, who calmly confessed the killing.

Mother Superior De La Lata, who denies any guilt whatsoever.

Manuel Trejo, labor leader and former government employe who is accused by the police of having furnished the pistol with which Gen. Obregon was shot to death on July 17.

Toral and the nun, who are under arrest, are stoical and face the future with utmost calmness. Thejo

Team Runs Away On Washington St.

Old Time Scene Is Re-Enacted Downtown Early This Morning

Shades of 1915 and former times were called to mind this morning about 8:30 o'clock when the team of the H. G. Preston company which had been stopped on Washington street near Neiman's decided to runaway from the driver and spend the day in a nice cool pasture somewhere near Volant.

The runaways got as far as Mercer street when an Amish man from New Wilmington happened on the scene and ran to the rescue. He grappled with the team for a few minutes and brought them to a halt thus saving the day for the owner, the driver and whoever they might have come in contact with on their speedy pilgrimage.

A runaway team is harder to control than a spunky flivver and no little amount of damage might be done by runaways.

This is probably the first runaway team that has been seen in the city for ten or fifteen years. It used to be a common occurrence and caused quite a consternation even then.

Venango County Oil Man Killed

(International News Service)

FRANKLIN, Pa., Aug. 1.—The victim of an accident on his oil lease, Warren H. Schaffer, 45, elected last May as chairman of the Republican county committee of Venango county, is dead here today.

Schaffer was fatally injured when part of a derrick on his oil lease collapsed while he and his son, Riall, were "pulling out" a well. Schaffer was pinned beneath a timber.

New York State Federation Unsuccessful In Effort For Smith Endorsement

By LAWRENCE SULLIVAN
International News Service Staff Correspondent

ATLANTIC CITY, N. J., Aug. 1.—Advocates of Governor Alfred E. Smith abandoned their fight for the American Federation of Labor endorsement in the National presidential campaign today when confronted with proceedings of the 1926 Federation convention at Detroit relative to the labor policies of General Motors, of which John J. Raskob, chairman of the Democratic National Committee, is a vice-president and director.

A second element in the collapse of the Smith offensive in the precampaign meetings of the Federation's executive council here was the record of the same convention in rejecting a resolution proposed in the name of the New York Federation endorsing Governor Smith for the presidency.

Four Won Over

Although a majority of the executive council of twelve has favored Hoover from the outset of the discussions here, four members who have aggressively favored modification of the Volstead Act in recent labor conventions delayed reaffirmation of the Federation's traditional non-partisan policy in the hope of securing a favorable recommendation on the Smith candidacy.

The 1926 convention proceedings were called up in the secret sessions of the executive council by President James O'Connell of the Metal Trades division of the Federation, under whose direction most of the organized workers of the automotive industry fall.

Strictly Non-Partisan

The proposed Smith endorsement for the presidency was presented by

American Girl Is Thrilled By Her Olympic Victory

Miss Elizabeth Robinson, Winner Of 100-Metre Race, Only Running Year

By ELIZABETH ROBINSON
(Winner of the 100-Metre Dash in the Olympic Games.)
(Written for International News Service)

AMSTERDAM, Aug. 1.—Naturally I am pleased to be the first Olympic lady champion. It gave me a tremendous thrill when the United States flag went up to the peak of the flag pole and the band played the Star Spangled Banner. I realized it was because I had beat the three other girls running in the 100-metre event. I never really trained much until after the Olympic trials. I never ran a race until a year ago.

But I have had a lot of coaching since then. In the race (in which a new record was made) I ran as fast as I knew how and I won. Perhaps I am lucky because the Canadian runner Miss Cook was disqualified. I know she is good. I felt sorry for her, but I am glad I had no harder competition than I had.

First Run From New Fire Station

The first run from the new fire station on South Jefferson street was made at 9:30 this morning, when, answering a call from Box 14, the firemen found a small automobile fire at the corner of Jefferson and Grant streets. No damage was done.

The firemen were at the new fire house putting everything into shape, preparatory to moving in when the telephones and alarm systems are installed.

Spanish Aviator Starts Round World Flight In Huge Metal Plane

(International News Service)

CADIZ, Spain, Aug. 1.—Bound for the Azores in the first leg of a projected round-the-world flight, Commander Ramon Franco, famous Spanish aviator, hopped off from here at 7:30 a. m. today (3:30 a. m. eastern daylight time), in a huge Dornier-Superwal hydroplane, the Numancia.

Franco was accompanied by Captains Ruiz Alda and Gallarza of the Spanish royal flying force and a civilian mechanic, Pablo Rada.

The start of the flight today followed months of intensive preparation. The hydroplane was assembled here by German mechanics and then put through severe tests. It is fitted with four Napier engines of 500 horsepower each and is said to be capable of maintaining an average speed of 125 miles an hour under ordinary conditions.

Wing Spread of 95 Feet.

The Numancia has a wing-spread of 95 feet and is of all-metal construction. It weighs 13,000 pounds when empty and is capable of carrying a load of 8,000 pounds. Its fuel capacity exceeds 2,000 gallons, giving it a cruising radius of about 2,500 miles.

According to tentative plans announced before the start of the flight, Franco intends to fly to Halifax after reaching the Azores. From Halifax, Franco will fly down the Atlantic coast to Havana, stopping at New York on the way down.

From Havana he will fly to Mexico City, then up the Pacific coast to Alaska, across the Bering sea, down the coast of Siberia and Manchuria to Japan, thence to the Philippines, Burma, India, and Persia in turn and across Europe back to Spain. Suitable stops will be made enroute.

Two years ago, Franco successfully spanned the south Atlantic from Europe to South America for the first time. Ruiz De Alda and Rada accompanied him on that flight also. Gallarza won fame as an aviator in 1926 when he flew from Spain to Manila.

Governor Smith To Go To New York For Conference With Democratic Chairman

Will Make Decision On Dual Capacity Of Senator Pittman In Notification

By RAYMOND I. BORST.
International News Service Special Correspondent

SOUTHAMPTON, N. Y., Aug. 1.—Governor Al Smith today was to forsake swimming in Long Island waters to get back in the swim of the presidential campaign.

Having enjoyed a five days rest at Canoe Place Inn, seven miles from here, the governor planned to motor to New York this afternoon where he expected to have several conferences with John J. Raskob, chairman of the Democratic National committee before returning to Albany on Sunday. One of these conferences with Raskob may take place tomorrow aboard the yacht of William H. Todd one of the governor's millionaire friends.

To Complete Address.

As soon as he returns to the capitol the governor will dispose of state business and then settle down to whip into final shape the address he will deliver on August 22 when he is to be formally notified of the presidential nomination. He hopes to complete work on his acceptance speech by the middle of the month so he will have an opportunity to get another brief vacation prior to the notification.

One of the first decisions which the governor is expected to make upon his return to Albany is whether Senator Key Pittman of Nevada will act in the dual capacity at the notification ceremony of formally notifying the governor of his nomination and also pre-

Elite Seeking To Escape Publicity In Liquor Seizure

Socially Prominent Persons In Bootleggers List Beg To Be Spared Publicity

(International News Service)

PHILADELPHIA, Aug. 1.—Threatened with exposure in court for purchasing liquor from a bootlegger here after federal dry agents seized imported wines, whiskies and liquors worth more than $25,000, scores of socially prominent men and women are pleading with Col. Samuel O. Wynne prohibition administrator for immunity from the publicity which would attend such proceedings.

Wynne however indicated today he would follow his original plan and subpoena them as witnesses against Joel D. Kerper, Tony De Mayor and John Brill of Camden who will have another hearing tomorow.

Approximately 1,000 names many of them among the social elite of this city, Washington, Bar Harbor, New York and Narragansett Pier were found indexed in the customers in the establishment. The plant was camouflaged as a tobacco import house.

Hoover Still Pursues Trout

Presidential Nominee Makes Catch Of Small Fish; Served For Supper

FISHING TOUR TO CONCLUDE TONIGHT

By WILLIAM K. HUTCHINSON
International News Service Staff Correspondent

SHASTA SPRINGS, Cal., Aug. 1.—After leading his party across the Siskiyou range by moonlight, Herbert Hoover today went fishing for rainbow trout in the lee of snow-capped Mount Shasta.

The Republican nominee, after getting a catch of small trout in Beaver creek, a tributary of the Klamath river, quit his mountain camp near Hornbrook, Cal., and led a cavalcade of motor cars over the Siskiyou mountain. The ride was made by moonlight and on most of the journey the white-topped Mount Shasta was in view.

The nominee, with Dr. Ray Lyman Wilbur, president of Stanford University, and a newspaperman, caught 35 rainbow trout, most of them small. Hoover kept his fish hidden all afternoon, as he didn't want to display a catch of such small fish. He served them, however, for dinner to prove they really had been caught.

Tries Luck Again

After reaching this mountain resort, shortly before nine o'clock, Hoover made new headquarters at a hotel within sight of Mount Shasta, a mountain stream called "Shasta Springs", because of its source, ran directly beside the hotel. He arose with the dawn, for the fourth successive day, and left for the Pitt river, a tributary of the Sacramento, to try his skill once more on mountain trout.

Throughout this trip, in which Hoover has fished three streams twice without a catch, he made it clear he was getting his fill of recreation and rest and as he explained it, this was the purpose of the trip, and he didn't mind coming back with an empty creel.

The nominee will leave here tonight on his return journey to Palo Alto, where he will remain for the next 10 days prior to making his acceptance speech there August 11. His party of 45 friends, newspapermen and photographers, will journey back by special train over the Southern Pacific lines, reaching San Francisco early tomorrow morning for a brief motor ride to Palo Alto.

OX ROAST WILL OCCUR AT NOON

Grangers Picnic On Friday Is For Any Who Care To Attend

Everything is in readiness for the Pennsylvania State Inter-County Grange picnic, which will take place August 3 at the farm of J. Audley Boak, and at which large delegations of grangers from all parts of the state are expected to attend.

One of the features of the day will be an ox roast, at which a 550-pound two-year-old ox will be served at noon.. The picnic is not only to the grangers, but to anyone who may wish to attend. In fact, the invitation has been made quite general, including everyone.

A speaking program, including addresses by Fred L. Rentz of New Castle, L. J. Tabor, national grange master, and E. B. Dorsett, state grange master, along with a band and musical program has been arranged for the afternoon. In the evening there will be other speakers and more music.

Alleged Chicago Election Thug Is Found Murdered

Benny Zion, Alleged In Gang That Killed Granady, Is Found Slain

BELIEVED KILLED TO HALT "SQUAWKING"

Bullet-Riddled Body Is Discovered In Garbage Dump; "Boss" Is Grilled

(International News Service)

CHICAGO, Aug. 1.—Belief that Benny Zion, indicted as an election day terrorist, was killed because of the fear that he would "squawk" was voiced today by Frank J. Loesch, prosecutor of the special grand jury investigating election day violence and his assistant, David D. Stansbury.

Zion's bullet-riddled body was found yesterday on a garbage heap in the rear of a Roosevelt road saloon. He had been indentified as one of the slayers of Attorney Octavius C. Granady, negro opponent of Morris Eller for Republican committeeman from the Twentieth ward.

Eller is Grilled.

Eller himself, boss of the "Bloody Twentieth" ward was questioned for three hours and twenty minutes yesterday by the special election crimes grand jury. The grilling took place behind locked and guarded doors.

What went on in the inquisitorial chamber was not made public, but it was reported that Eller was questioned concerning his connection with Zion. When Eller left the grand jury room he posed willingly for photographers but shied at reporters.

"The grand jurors treated me with the greatest courtesy" was his only comment.

Eller appeared before the grand jury voluntarily and signed an immunity waiver which was described by Prosecutor Loesch as being "without limitation."

Find Negligence Cause Of Blast In Johnstown, Pa.

Two Corporations And City Of Johnstown Held Responsible For Four Deaths

(International News Service)

JOHNSTOWN, Pa., Aug. 1.—Negligence on the part of two corporations and the city of Johnstown are today blamed for the sewer explosion here last week which resulted in the deaths of four laborers, according to a report to the coroner's jury investigating the explosion.

The D. R. Davis Construction company was charged by the jury of failure to take proper precautions for the safety of its employes after the company was said to have had knowledge of the presence of gasoline in the soil.

The Universal Oil company, the coroner's jury reported, was negligent in permitting gasoline to escape from its service station and to seep through the ground.

City officials were held responsible for their failure to take proper steps after learning of the danger.

The four victims who died as a result of the explosion are John Poliacek, 16; Joseph Martineze, 23; Tony Zolar, 25, and Jose Diarz, 40. All of them died in local hospitals from burns received in the blast.

Mention Klein As Hoover Successor

Business Men Of Country Start Campaign To Have Klein Named To Cabinet

CHIEF ADVISOR TO HOOVER FOR YEARS

(International News Service)

WASHINGTON, Aug. 1.—In an effort to keep the department of commerce "out of politics," business men of the United States have started a campaign for the appointment of Dr. Julius Klein, director of foreign and domestic commerce, as a successor to Herbert Hoover, it was learned today.

Taking the stand that the department is exclusively devoted to commercial and industrial activities, business men have laid their case before President Coolidge, representing that the selection of a secretary of commerce, based upon political considerations, would be unfortunate.

While it has been supposed generally that Hoover's successor would be from among the politically prominent Republicans, there now appears to be grounds for the belief that the President has been impressed by those who hope to keep the commerce department a "business bureau."

Klein has been one of Hoover's chief economic advisors during the last eight years, particularly in matters pertaining to the expansion of foreign trade, which has grown enormously since the war.

Hoover always has taken the attitude that foreign markets, properly promoted, would furnish an outlet for the surplus American production and might be the means of preventing a disastrous slump in industry during periods of slackness in domestic demand.

Air Mail Rate Decreases Today

Increase In Use Of Air Mail Service Is Foreseen By Local Postal Authorities

Postal authorities in New Castle, see a slight increase in air mail matter going out of the local office with the establishment of the new air mail rate, which becomes effective today, and which calls for five cents per ounce instead of ten cents per half ounce, as has been the case for some time.

The officials expressed their beliefs, however, that the increase would be much more noticeable were this city on the route of the mail service.

The new rate calls for five cents for the first ounce and for ten cents for each additional ounce, which is only one-fourth of the old on the first ounce.

While here on his vacation the governor had refused to comment on the recent attack made on him by William Allen White, Kansas editor, but he has indicated that a reply may be expected in the near future. He smiled when he learned White had retracted that part of his attack which charged him with voting to protect vice and gambling when he was a young Tammany assemblyman.

Soviets Give Title And $75 Pension To Famed Circus Clown

(International News Service)

MOSCOW, Aug. 1.—V. L. Duroff, for 50 years Russia's most famous circus animal trainer and clown, has been awarded the title of the "People's Practical Joker" and retired at the age of 67 on a government pension of $75 a month. He lives rent free in the former villa of a millionaire with a baby elephant, a monkey, three sealions, four tamed hyenas and innumerable Angora cats, white mice and dogs.

Duroff is known from one end of the country to the other as the man who made the most people laugh. He went to jail several times in the czar's regime for refusing to allow the political police to censor his jokes. One time he was exiled to Siberia for six months because he satisfied a grudge against the police by driving a pig dressed in the uniform of a gendarme through the streets of Leningrad.

The title "People's Practical Joker" is equivalent to "People's Artist," the highest distinction which the Soviets bestow on a few actors and artists. He refused to retire, however, without a written guarantee that he could take certain circus pets to live with him.

The monkey, who is as well-mannered as a child of 14, is his constant companion at the dinner table even when guests are present. The animal eats with knife and fork and drinks out of a glass even between meals. Half a dozen parrots and talking ravens keep him in good humor. One of the parrots has been with him 40 years. The elephant and sealions live in an annex that used to be a kind of Roman bath.

Kiwanians Hear DeGraff Pearson Talk Of Travels

Countries Of Mediterranean Visited By Local Man Are Found Interesting

Members of the New Castle Kiwanis club were priviledged to hear S. DeGraff Pearson, prominent business man of this city, deliver a most enjoyable narrative of the countries of the Mediterranean, when the club met in the dining room of the Elks club for the regular weekly session today.

At the conclusion of Mr. Pearson's address, which dealt to a great extent with the customs of the people which inhabit the lands there, a unanimous vote of thanks was given him by the club, with a hearty invitation to come back again sometime and deliver an address on "The Valley of the Kings".

In his talk Mr. Pearson declared that the people of America do not know what conservation is until they visit Egypt and see the people living under extremely conservative conditions there. "Ther country is a very quiet and peaceful one," he continued.

One of the amusing portions of his address was the story of how the merchants of the towns in Egypt attempt to over-charge the visitors every time, but how they come down in their figures once the customer becomes aware of the deal he is trying to pull over.

Previous to Mr. Pearson's talk, the members elected Rev. C. J. Williamson, Thomas W. Dickey and L. C. Mantz to represent the club at the coming state convention of Kiwanis at Uniontown.

is missing and is believed to have escaped to the United tSates.

For many hours Toral underwent relentless questioning yesterday and faced a continuation of the grilling today. It is expected that the formal accusation of murder will be lodged against him tomorrow. In the Mexican courts this is equivalent to a grand jury true bill in United States criminal procedure.

Slayer Annoyed

Toral has sat through the proceedings impassively, at times seemingly annoyed by the questions.

"It was all very simple; any one could understand it," he repeated several times.

It is the contention of the prosecution that Toral was influenced to commit the crime by a conversation he had with Mother Superior Conception several days before the shooting. Toral stoutly maintains that no one but himself knew of his plan to kill the president-elect.

The nun is apparently a woman of superior intellectuality. She is about 45 years old, self possessed and stately in appearance. She told newspaper correspondents she faces the future with calmness.

Aside from the preliminary court inquiry Gen. Antonio Zertuche, chief of police for the federal district, is continuing his own investigation. Evidently he is not yet satisfied that Toral acted alone. He is determined to ascertain if a plot existed and if so to learn the identity of the ringleaders.

Toral has given no help in this direction. He says he knew of no plot and acted because he was actuated by "heavenly motives." He said he feels he committed no sin and that the killing of Gen. Obregon "will not prevent him from going to heaven."

The most tragic figure at the hearing is Toral's young wife. She is destitute. Already she is the mother of two children and expects to become a mother again. For the time being she is living on the bounty of relatives.

SMITH BACKERS FAIL IN ATTEMPT FOR ENDORSEMENT

(Continued From Page One)

J. M. O'Hanlon, of the International Pavers Union, in the name of the New York State Federation. In urging non-concurrence, the resolutions committee, headed by Vice President Matthew Woll, urged "strict adherence" to the non-partisan policy of the Federation. The report of the resolutions committee was unanimously adopted by the convention proper.

No similar resolution was presented in the 1927 convention at Los Angeles.

Acceptance of the A. F. L.'s five-day-week program by the present Republican administration for such operations in navy yards as do not require continuous labor was also cited by those favoring a non-partisan recommendation. The five-day-week was made a cardinal objective of organized labor at the Detroit convention. It has been applied in several government departments for experimental purposes, as well as in Eastern seaboard navy yards.

Despite Danger Few Highway Employes Suffer Snake Bite

HARRISBURG, Aug. 1.—The second case of snake bite in twelve years reported to the Pennsylvania Department of Highways involved Norman A. Simonson, 31, of Lord's Valley, Pike county, a compensation accident report revealed. Simonson's condition is doubtful.

Simonson, the report recites, was at work with a brush hook clearing the edge of a roadway near Peck's Pond. As he threw some brush back from the roadway, the rattlesnake struck and punctured the index finger of the man's left hand

Clerks in the department who handle the accident reports declare that the last snake bite among Department employes was reported some twelve years ago, despite the fact that field employes are constantly coming upon poisonous snakes in their work. Stories are still told of working upon the "Bennet Cut," on the Roosevelt Highway near Wyalusing, Bradford county.

Several miles of the highway were relocated in this section to obtain better alignment and avoid spring freshets in the lowlands. A roadway was hewn through the summit of a mountain covered with brush, and workers came to regard rattlesnake killing as part of the day's work. Two dens were encountered in one day, but no hits were scored for the rattlers.

The story is told of a young corpsman who had attended a dance and was returning over a mountain trail when he herd a sound and felt something strike his leg. He immediately started to run, and was certain a snake had bitten him. Eager to reach medical aid, he ran nearly two miles, and was in a state of collapse when he reached town.

Fellow corpsmen found a large rattler had struck, entangled his fangs in the wool stockings, and had suffered a broken back in the two-mile flight. The corpsman, whose name is not on record, was unscathed.

Concessionaires At Fairs Are Told Of Food Regulations

HARRISBURG, Aug. 1.—A general warning has been issued to prospective food handlers at agricultural fairs by the section of restaurant hygiene of the State Health Department.

Howard M. Haines, chief of the section, said today that instructions concerning this control measure have been mailed to hundreds of concessionaires. The warning follows:

"The protection of foodstuffs, which includes pies, cakes, etc., must be established against dust, dirt, flies, and other vermin. The use of fly netting or any other temporary arrangement, will not be approved. Adequate protection of a substantial type is required. If a hot dog griddle is used, it will be necessary to provide a cover which can only be opened in the back.

"Garbage must be kept in tight metal containers, with lids, and carelessness in scattering garbage in the locality of the cans will not be tolerated.

"An abundant supply of hot water and soap must be provided to wash all utensils used in the preparation or serving of foods. Care must be exercised in the disposal of waste water. All those handling food or drink must be examined by a registered doctor of medicine and the reports be at the stand when an inspection is made by Health Department officials."

Brothers And Sisters Discover Each Other After Half Century

(International News Service)

NORFOLK, Va., Aug. 1.—James A. Suddith, this city, had lived nearly a half century with a belief his brother and sister were dead.

Recently he heard a man of his name was visiting the city. He investigated and found W. S. Suddith of Chicago, the visitor, was his brother he had not seen for 49 years.

The brother informed that their sister, Mrs. Annie Finks, was living in Akron, O. The Suddiths separated when they lived in Warrentown, Va. They plan to visit neighbors there and then go to Akron and stage an old-fashioned reunion with their sister.

Chicago Buildings Rocked By Bombs

(International News Service)

CHICAGO, Aug. 1.—Bombs again today shook sections of Chicago. Windows were broken and other minor damage done when a black powder bomb was exploded in an apartment building owned by Dr. Max Thorek.

Shortly after another bomb was exploded at a photographer's plant. Small damage was done but investigating officers later discovered three sticks of dynamite in the basement of the building.

Police were unable to account for the cause of the bombings.

Earlier in the day a bomb wrecked the home of A. R. Bryant, said by police to be a "strike-breaker." Labor 'bombers" were responsible for the Bryant home blast the authorities said.

Mt. Jewett Man Killed By Train

(International News Service)

KANE, Pa., Aug. 1.—Funeral arrangements were made today for Emile Oberg, 50 who was fatally injured when struck by a B. R. and P. railroad freight train at a crossing in Mt. Jewett near here.

A fractured skull was assigned as the cause of Oberg's death at the coroner's inquest. Oberg lived for almost an hour after he had been struck by the train. A Punxsutawney crew was in charge of the train.

Oberg's death is the third fatal accident on the B. R. and P. tracks in Mt. Jewett during the last year. All the victims were struck by trains.

ENGLISH-FRENCH SET UP AGREEMENT ON NAVAL ISSUES

(Continued From Page One)

Chamberlain's announcement in the British House of Commons that a compromise had been reached, professed to see little importance to the United States at this time.

The nature of the agreement is believed to be an actual recession by France of her viewpoint that naval limitations be on a basis of global tonnage, and an acceptance of the British view that definite limitations be made of ship categories. France is credited with having theoretically however, maintained her former position, reconciling the seemingly irreconcilable difference by agreeing to announce what she intends to build in each of the ship categories.

New Castle News Reader Down In Alabama Writes Letter To Fontaine Fox

How news does travel. Especially The New Castle News. Down in Axis, Alabama, a man named Charles Anderson is a daily reader of The New Castle News. He enjoyed the comic features of The News and wrote to Fontaine Fox, the creator of the famous "Toonerville Folks", and told him how much he liked his cartoons, and this morning Mr. Fox in a very nice letter to The News relayed the letter back to us.

The letter to Mr. Fox from the Alabamaite follows:

Axis, Ala.,
July 10, 1928.

Dear Mr. Fox:—

I enjoy your comics—we get them in The "News" of New Castle, Pa.—very much.

If you ever come to Mobile—and every one should—call me on long distance and I will go in and get you and divide our corn bread and bacon with you.

Yours truly,
CHAS. ANDERSON.

The letter to The News came direct from the Toonerville company and was written by the Honorable Bigelow Foote, otherwise and ceremoniously known as "Suitcase Simson."

With New Castle Afro-Americans

Textile Strikers Marking Time

Work Of Bailing Out 265 Pickets Arrested Yesterday Is Making Progress

(International News Service)

NEW BEDFORD, Mass., Aug. 1.—Strike of the 27,000 textile operatives here in protest against a ten percent cut in wages, now in its sixteenth week, marked time today as members of the Textile Union prepared to vote on the suggestion of the state board of arbitrotion and conciliation that the wage question be arbitrated by an impartial tribunal. Only a few pickets were out.

Work of bailing out many of the 256 pickets who were arrested and who appealed from jail sentences went forward today with talk of deporting those found to be undesirable aliens.

All the so-called radical leaders of the Textile Mills committee branch of the strike were still in the house of correction today awaiting bail.

New Bedford citizens deplored the statement of John Sullivan of the Cotton Manufacturers' Association that police and military protection here was insufficient. Picketing has been peaceful, a majority of the strikers being members of the Textile Union, the so-called conservatives.

The Griffiths girl's body was recovered in an hour, but attempts at resuscitation by firemen and bathers were in vain.

The drowning was the second at the lake in less than two weeks.

Kittanning Bridge Must Be Elevated

(International News Service)

KITTANNING, Pa., Aug. 1.—Armstrong county commissioners today were faced with the task of elevating the bridge spanning the Allegheny river at Kittanning following receipt of an order to this effect from Secretary of War Dwight W. Davis.

The elevation of this bridge comes as a part of the War Department's campaign to clear the Allegheny river of all obstructions to navigation. The present bridge spanning the river at Kittanning is too low to permit steamer traffic.

The order received by the Armstrong county commissioners, states that the bridge must be altered and elevated within two years to provide sufficient clearance for river traffic. It required that two spans on the east side of the stream be removed and that the channel span be raised to a height of 47 feet above ordinary pool level.

The action of the War Department follows a long controversy between county officials and the U. S. Engineers. Pittsburgh is also affected by similar bridge raising orders from the War Department.

Ask Fred.. he has the RIGHT time!
WHENEVER the question of time comes up in our crowd, there are some watches a little fast—others a little slow. Then someone says, "Ask Fred . . . he has the *right* time."
Fred's is a Hamilton—the watch of railroad accuracy. The country's fastest flyers of the rails have been started and guided on their way for years by the Hamilton Watch.
We now have a beautiful new line of Hamilton models, both pocket and strap. Ask to see the ENGRAVED CUT-CORNER (shown above)—a sportsman's watch with a dash of individuality in its smart design at $57. Let us show you others—beautifully cased—for as little as $50 and up to $400.

DEMOCRACY IS DEAD

THE Old Democracy is no more. The Houston convention dealt the death blow to its traditional creed and changed the color of its age-worn standards. A new party was born on the bier of the old.

Of the Old Democracy only the name remains. Since its inception it had been a rural party, a planter-dominated political organization, ruled by men from the cotton states, the wheat belt and the corn belt. It was the party of the plains where Bryanism had its rise and where hatred of Big Business and Wall Street was a religion.

For the present campaign at least, and probably for all time, the Democratic party has turned its back upon the shadowy shapes of the Bryans and the Blands and is worshiping at what the Democracy of yesterday denounced as the Temples of Mammon. The party laws and the party gospels come today from the big towns. The cities are in the saddle and rural Democracy walks in the dust.

The transformation has been complete. The nomination of Governor Smith of the very bone and sinew of the big city. Acceptance of the leadership of Tammany Hall. Selection of John J. Raskob, a capitalist of the capitalists, as Democratic national chairman. The silencing of its traditional battle cry "Tariff for revenue only." Dismissal of its studied and rancorous hostility toward Big Business and mass industry. Espousal of the city man's cause in the prohibition controversy. Here is the proof of the pudding.

The Democratic party honors the Republican party with imitation, the sincerest form of flattery. It has awakened to the fact that to win it must fight with the weapons of Republicanism. The day has dawned when Democracy admits it has served the few to the prejudice of the many.

SEX INEQUALITIES

THE average American probably has believed for years that the last impediment to woman's full participation in the political and business life of the nation has long since been removed. With the adoption of suffrage he has taken pride in the belief that America is the most advanced country in the world in emancipating womankind. That there are still obstacles will be news to the majority and its reaction will be that these should be removed. If and when women generally interest themselves in movements to this end, the last obstacles to entire equality are bound to be removed.

Feminists complain that although American women have the right to vote they are still far removed from equal citizenship with men. They cite a number of inequalities they would like eliminated.

In some states thousands of women are deprived of the right to vote because they have separated from their husbands or have been deserted by them and are living in states which are not the legal residences of their mates. Although they may be self-supporting and have established a permanent residence, the law compels them to return to the state of the husband's residence to vote.

There are several states which exclude from their state-maintained universities all women, although they pay taxes for their support. Women are not eligible for jury service in all states. Several states have erected statutory obstacles to a married woman entering business independent of her husband, and in some a husband can claim all his wife's earnings.

Offsetting these palpable inequalities are several favoring the "weaker" sex the repeal of which is sought by neither man nor woman. Male legislators, and they still predominate, will give the women most anything they want, but the latter must make known their wants. And what the rank and file of women want is not necessarily what their zealous leaders say they want.

SPARE US OUR ILLUSIONS

AFTER years of politely thumbing his nose at invitations to visit America, George Bernard Shaw at last has relented and will arrive in our midst some time next year. At least so announces one Robert Fairbanks, brother of Douglas Fairbanks, the cinema hero; and he states further that the distinguished author and dramatist will be the guest of the Fairbanks at their home in Hollywood.

If Mr. Fairbanks is not talking through his hat, and there is no reason to think he is, one may well wonder what has happened to the usually inflexible Shavian mind. While Mr. Shaw has always condenscended to accept fat royalties on his books and plays from this fat land, he has also made it plain that his curiosity about the way we move and have our being was not sufficiently acute to cause him to cross the ocean and mingle. Is it possible, unhappy thought! that Mr. Shaw is being worn away with age and that he has given up the hope of preserving the majesty of a rigid mentality in his twilight years of decay?

While we as much as anyone would like to have a look at Mr. Shaw in the flesh, our advice to him is to stay at home. Distance lends enchantment, and since Mr. Shaw has built a mammoth reputation for himself, as he has said, on the principal of dogmatic reiteration, he should leave it where it is. We are sometimes an impudent people and it is possible he may be tricked into leaving us a ridiculous rather than a dignified figure.—The Baltimore Evening Sun.

Hints and Dints

Sun sets tonight 7:16. Sun rises tomorrow 4:57.

Someone asks us why they call a man's wife his better half. Probably to keep her from thinking she's the whole thing.

The neighbors who play their radio or phonograph until midnight or longer are the ones who complain about a neighbor operating a lawn mower at seven o'clock in the morning.

With the discovery that there are 16,000 ways for a man to earn his living it is still difficult to pick out one that will work.

Which one of the candidates for President will adopt President Coolidge's successful method of asking no questions and answering very few? Also, of not saying hardly anything? It has won much for President Coolidge.

A lady in Ohio died after eating toadstools for mushrooms. It is the time the year when people have to be told to be sure of their mushrooms. After one eats toadstools or gets married it is too late.

HER NUMBER.

He was newly arrived in this country and was none too familiar with the use of the telephone. So he took the receiver and demanded:

"Aye vant to talk to my wife."

Central's voice came back sweetly: "Number, please?"

"Oh" he replied, perfectly willing to help out, "she bane my second vun."

In this country some do not choose to run. In Mexico they have to run, and fast, if they would get out of range of the firing squad.

A noted New York financier whose wife is a member of the national Republican committee has formally allied himself with the Association Against the Prohibition Amendment and will support Gov. Smith for President. It is said that many families will be divided politically that way during the coming campaign on account of the wet and dry issue. That may be, but we are betting that there are a lot of ladies who will tell their worst halfs how to vote, and see to it that they do it.

Mother says the saying, "It is a wise child who knows its own father" originated after daddy got his golf pants.

There is a group of Texans who are opposed to Smith for President, and that group has a set of candidates in the field for high state offices at the primaries held in Texas last week. The anti-Smith outfit was so badly beaten it did not know it was running. This talk about the Dems repudiating Smith is all bunk. Democrats is Democrats, and they stick together and with the help of legged Republicans often get all the best offices. There are some mighty smart Democrats in the Presidential campaign this fall. Most of them, however, have been Republicans in name at times before.

Someone, evidently one of those drug store cowboys, postcards us with the question, "What is a rope ladder made from, please?" The most successful rope ladders are made from a pretty girl's bedroom window to the ground. They used to use ladders to make their getaway in an elopement in the old days.

There is a great shortage of beef cattle in the United States just now, and beefsteaks, tough ones included, may reach the wartime prices. The best thing for humans to do while the price is high is to cut out meat and you will have more money and feel better. You probably suspect now that we have no beef cattle.

Any young man who refers to a girl as a jane will sleep in his underwear.

It is given out that about 50 per cent of the voters in this country can be gotten out to vote by organization and money. We thought more than that could be gotten out from our little political experience some time ago.

As a rule the fellow who is a fool about women isn't much different when he's not about them.

No doubt screen doors and windows also keep some flies from getting out of houses. That seems natural enough.

What kind of etiquette do you call it when some bird drives up in front of a private residence and starts to blowing his disorderly automobile horn and keeps it up until someone comes out of the house and sees what he wants? No one has ever done that yet in front of our house.

NO ANSWER TO THIS ONE

New Castle, Pa., July 27, 1928.

Dear Hints and Dints:

Do you think the astronomer can account for this?

Mr. Sunn who tho't he knew
All the facts about the Moon,
Set to work in the morning
And completed a car by noon.
Then in its cushioned seat he climbed
And drove at a wicked speed
Till at last he became excited
And pressed his foot on the feed.
Just then he saw a Star
Coming toward him fast,
But he took his half from the middle
And therefore, it didn't get past.
Sunn, Moon and Star heaped up,
Tho' Sun doesn't give a care,
For he's unconsciously waiting
Till some of the cops get there.
But alas! from among the ruins
Crawled the owner of the Star,
For determined was he, this was his chance
On getting a brand new car.
Just then along came a salesman
And quickly said, "sign here,"
And vigorously shook the man in the moon,
But couldn't make him hear.
"My gawd!" said the Star owner, "it's Sun,
And I owe him eight hundred and ten."
Up sprang Sunn on an elbow,
But immediately fell dead again.

P. S.—We understand the jail has been recently fumigated and whitewashed.

In England the automobile is putting the railroads on the bum. In order to help the railroads all of the employes have agreed to a cut in wages amounting to two and one-half per cent. That could never be done in America. The railroads would just add more to their fares and freight rates in this country and those who use the railroads would pay for it.

There is an awful lot of difference between a group of men seeking personal advantage instead of promoting public service.

The chief of police of Kansas City has ordered all the owners of disreputable looking flivvers with wisecracks painted on them to have them removed—we mean the wisecracks. And that's not a bad idea.

The Democratic national campaign committee is figuring on putting on an energetic campaign for funds. Seems to us there was some Democratic talk in the U. S. senate some time ago about extravagant campaign funds. The Dems will turn down no funds no matter how much is offered.

We are now told that chemical science may some day produce an all slender and graceful race of people. That will be great but the price of white bread and potatoes will go soaring. Just think of no more dieting and just naturally slim! Oh wham de doodle wham!

You won't believe this, but there are people who figure that hiring a pew in the church is good business.

President Coolidge in a speech last week made the statement, "Sectionalism in the United States is gone." The president has evidently neglected the south and southwest in his travels.

OUCH! THAT HURTS.

The late Marie Corelli on being asked why she never married said: "There is no need for I have three pets at home which answer the same purpose as a husband— a dog which growls every morning, a parrot which swears all the afternoon and a cat which comes home late at night."

In the four weeks ending July 14, 1927, 573 deaths were caused by automobiles in the United States. In the same period in 1928, 514 were killed, which is a reduction. There must have been a shortage of gasoline in some parts of the country.

Specialists figure that one who can keep folks waiting the longest in the outer office is going to acquire the biggest reputation. And at that we would not blame some for not letting some in at all. It's a total loss when some people visit us.

Mr. Levine of ocean flight fame and a lady referred to as the "Queen of Diamonds" have given up a flight in an airplane from Europe to America on account of not being able to get a suitable craft. We would not take a flight either for that same reason. Funny thing about those flyers across the Atlantic, they are mostly all married but not to each other.

He Has the Rubber Wheel Now.

Some days ago we published the following item and Mike Snyder thinks he has given the correct answer, so we sent him the rubber automobile wheel to his home at 410 Uber street, city.

Five hundred Smiths held a picnic in St. Louis and formed an organization called "The Smiths". They sang lustily a song entitled "The Sidewalks of New York". Can any lady or gentleman tell who they are for as president of the United States? A rubber automobile wheel will be presented to the one giving the correct answer.

The prize winning answer:

410 Uber Street,
New Castle, Pa.

Dear Sir:

I have read the paragraph contained herein and after careful deliberation have come to the conclusion that the 500 Smiths are for Gov. Smith for president of the United States. Therefore, I say that the 500 Smiths are for Gov. Smith as president of United States, and believing my answer to be correct I lay claim to the rubber automobile wheel offered as a prize to the one giving the correct answer, and I demand that it be sent to me immediately upon receipt of this letter.

Yours truly,
MIKE SNYDER.

Ask a college boy how he'll have his oysters and he'll answer "Rah!"

Mr. Edison, the great inventor says Hoover will be elected "because Smith is too much loaded with association which people don't like." It does look exactly just that way.

To the proprietress of a beauty parlor birth control means keeping 'em from being born with a natural wave in their hair.

By the way, what do you think of the cute boys who have their hair waved? That's just what we think!

And some fellows will let their hot air furnace go until it is time to start a fire in it again and then the trouble will be on.

France is still trying to get out of paying America for saving it from being annihilated. Next time we should stay at home and eat our own white bread and sugar.

Mr. Hoover is catching trout in Oregon.

Gov. Smith is catching kingfish and swimming in the ocean off Long Island.

It is the lull before the political storm. And it will be a real storm when it starts, with new features.

Republicans realize that they have a hard fight ahead in New York state. Already it is announced that Hughes and Borah will stump New York in October. The big guns will be used for the hard fighting.

Killing men by electricity is old, but Joseph Kamenisky's killing was unusual.

Only 20 years old, Kamenisky confessed he killed Dr. Gerald Kelly because the latter had advised the amputation of Kamenisky's leg, injured in a mine accident.

When he found he couldn't work as a miner, Kamenisky became a murderer, for revenge. He hobbled to the electric chair on crutches.

That was the novelty.

Gene Tunney, whom certain prize fight "fans" don't like, because he has brains and they haven't, will retire from the ring. That, it is said, will "hurt the game", which is too bad. No matter what champion they may develop to collect money from fools, it can never be proved that he could have beaten Tunney.

Tunney, you read, "is going to Paris to study philosophy." An excellent place. The Sorbonne is well equipped.

But the important thing is to be a philosopher, not merely a study of other philosophers.

If Tunney can take his $2,000,000, quickly earned out of prize fighting, and stay out he will have proved himself a real philosopher.

Mr. Eastman, king of all kinds of photography, announces perfected moving pictures in colors. With that announcement, pictures reach full development, motion, color, sound.

Now you will see the heroine's, or the vampire's rolling eyes, hear the voices that lure men to their doom. The moving picture stage will show all that the living stage can show.

Talking movies will put a premium on intelligence. A cultivated voice indicates a cultivated mind, and cannot be created over night.

Science offers an idea to prohibition enforcement. It is not necessary to break down the speakeasy door. Simply shoot a little gas, the right kind, through the keyhole, and all the speakeasyites will come hurrying out of their own accord. The place would be uninhabitable for a month. And the gas is guaranteed not to kill the speakeasy customers.

That is one way to discourage bootlegging. The simpler way is to jail the bootlegger's customers. The bootlegger can square things with the police and the prohibition officials. But the millions of bootlegger customers couldn't do it. Jail the man who buys alcohol and you will stop the buying.

And that would be done if the country really meant to stop the traffic. In New York you look out of a window on a rainy day and see small boys with umbrellas standing at the curb ready to escort ladies and gentlemen from their taxicab to any one of half a dozen speakeasies' basement doors.

The small boys, collecting their dimes, know where the speakeasies are. The police might find out, if they were interested, so could government officials.

More discipline Monday for the little fish that will persist in stock speculation. The price of "call money" was put up to six per cent and the fear of a seven or eight per cent rate sent the poor in spirit scurrying to unload.

Retail trade in New York is up. Wholesale business drops, not because of less selling, but because chain stores, every day more powerful, buy direct from factories, going over the heads of wholesalers and jobbers.

Not good for the latter, but if eliminating one middle man eliminates one profit, paid by the consumer, the consumer will not complain.

The American Federation of Labor's official organ announces that unemployment is diminishing. The number of organized wage earners out of work decreased two per cent in 24 cities during June, as compared with May.

Dr. Crane's Editorial

PIONEERS

And now Captain Charles Kingsford-Smith, Captain Charles Ulm, and their American navigator and radio operator are to be added to the list of pioneers.

They flew from San Francisco to Sidney, a distance of 7,347 miles, at an average speed of eighty-eight miles an hour.

Not long ago Lindbergh flew across the Atlantic to Paris and Captain Nobile made another trip to the North Pole.

Every few days somebody is doing something new in the air. Records are crashing all about us. Many lives have been lost in unsuccessful experiments.

These adventures are marking the way for the progress in air travel. Somebody has to go before and show the way in all forms of progress. The early settlers in the United States risked their lives and often lost them in subduing the wilderness. Where once there was a body of hardy pioneers there are now growing farms and populous cities.

The sons of Martha are always building bridges, laying out railroads, fighting savages and risking all sorts of perils to make way for civilization.

We ourselves are now living in comparative security in countries that were won for us by the pioneers.

Where now are the populous cities of Omaha and San Francisco or for that matter even Philadelphia and Boston, pioneers once risked their lives facing the perils of the unknown.

In a few years fat merchants and their bejeweled wives will be riding comfortably along the paths marked out for them by Lindbergh and Kingsford-Smith.

It takes all sorts of people to make a world, and the most indispensable kind of folk are those who take their lives in their hands and blaze the trail for the rest of us. We cannot think too often, however, of the saying of Emerson, "Adventurers can no longer go in the Mayflower from England to Plymouth Rock, they can only sail from righteousness to righteousness." We need the spiritually bold and adventurous as well as those who are physically unafraid.

We can never realize how much we are indebted to such men as Noguchi and Lindbergh until civilization has settled down and we have entered into the fruits of their enterprise.

The main thing that we can learn from the experiments in flying is that permanent progress in flying, or transportation by air, depends upon the efforts of properly trained flyers and perfection of the machinery.

The World AND THE Mud Puddles

HOW IT IS MADE.

There is a popular superstition that "Panama" hats are woven under water. Like other superstitions, no one knows its origin. It is true that the true "Panama" straw as it is called cannot be woven in sunlight but must be created in the dews and damps of a tropical night.

This much sought after head covering should in reality be called a "Toquilla" hat, for it is made of the leaves of the toquilla plant. These leaves are cut before they are entirely open, carefully prepared and plunged into boiling water. They are then dried and bleached, divided into minute straws or threads and deftly woven into hats by the hands of Indian women, (the males of the tribe never work.)

The reason why the "Panama" cannot be woven by daylight is because the straws are so delicate that they are apt to snap in the heat of the sun. Like the weaving of a beautiful Indian rug or blanket, it takes weeks and months to make this wonderful chapeau.

Wealthy South American planters will sometimes pay as much as $100, gold, for an especially fine woven "Panama."

Be warned! No real "Panama" can be sold in these United States for less than $50. And the finest ones sell in New York for $150 and up.

JOURNEYING HOME

This is the little path that brings
me home;
I've left the last wide street of trade
and noise.
And now soft lights are blinking
through the gloam
And peace is near with its attendant joys.

'Tis queer what thoughts are born of
buildings tall
And the hard pavements where the
busses ply.
I wonder if they're men like me at
all
Who sit at desks in offices so high?

What of that merchant standing at
his store,
When his day ends and counted
is his gain,
Does he train climbing roses near a
door,
Or trim the lawn, or mend a window pane?

Do all these people hurrying to and
fro
Plant little gardens when they've
done their tasks?
And do they smile to see nasturtiums
grow
And fashion toys which eager childhood asks?

But here I am upon my little street
And now I'm done with traffic and
with trade.
Here I have come to love and laughter
sweet,
Now I can rest nor longer be afraid.

FARM RELIEF ISSUE.

The farm problem and the attitude of the major political parties toward it continue to be a subject of absorbing campaign interest and speculation.

Farm relief and prohibition are linked in some comments as puzzling issues, the Washington Star (Ind.) declaring that "the Kansas City and Houston conventions both left sore spots" (including farm and dry issues), and that "Republicans and Democrats alike are experiencing a certain amount of discomfort therefrom." Referring to the action of the Corn Belt committee at Des Moines, The Star holds that "while the committee did not declare for the election of Governor Smith, its resolutions can only be regarded as friendly to the New Yorker." However, the same paper adds that "the farmers of the Middle West, represented by the Corn Belt committee, may not like Mr. Hoover, but there is a lingering doubt in the minds of many observers whether they like Governor Smith any more."

Discussing both candidates, the Chicago Tribune (Rep.) refers to the fact that "Mr. Hoover has dared to declare himself in opposition to the equalization fee, though no one knows better than Mr. Hoover that without the Corn Belt his chances of victory are slim"; and The Tribune remarks: "The issue is not an easy one for a man in Governor Smith's position to meet with frankness. To win, the governor has to carry Eastern States, with their crowded cities, and he must pick up some agricultural States as well. He might win agricultural States if he indorsed the McNary bill unequivocally, but he would then give an opening to the Republicans to campaign against him in the cities, with the argument that he advocates a measure which will raise the price of bread."

"The existence of the agricultural problem and the urgent need for a solution" as observed by the Forth Worth Star-Telegram (Ind. Dem.), "have been recognized by men and organizations which speak with authority. For example, the business men's farm commission, appointed jointly by the National Conference Board and the Chamber of Commerce of the United States, organizations which certainly cannot be charged with undue sympathy for the farmer, has issued a report which recognizes the serious evils in the situation." The Star-Telegram protests against farm journals which may be influenced by politics in the campaign, and especially against one whose editor has denied the existence of a farm problem.

Criticising the Republican picture of Governor Smith "as a mere New Yorker," the New York Times (Ind.) suggests: "The complacency of the Governor's political opponents must have been pretty well shattered by his prompt and explicit reply to the telegram from the Corn Belt, asking what he proposed to do in regard to the plight of agriculture.***It is not a bad thing, in a political fight, to exhibit initiative and audacity. In them Governor Smith has never been lacking during his public activities in New York, and now he has given the country a foretaste of what he will be doing as the combat deepens."

The Los Angeles Express (Rep.), however, rejects Tammany's "assumed concern" for the welfare of the farmers, and the Springfield Illinois

Guardsmen Held Idle By Storm

Rain Causes Postponement Of Activities In Guard Summer Camp Today

FIELD MANEUVERS START THURSDAY

(International News Service)
CAMP HENDERSON, MOUNT GRETNA, Pa., Aug. 1.—Rain today caused postponement of many of the activities of the encampment when the National Guard planes were kept in their hangars.

Most of the 4,500 troops of the 28th division encamped here under Major General William G. Price, Jr., of Chester, continued some form of training activity when events in which the observation squadron was to have participated, were postponed.

The 112th Infantry regiment of Western Pennsylvania, commanded by Colonel C. Blaine Smathers, of Grove City, engaged in combat work, bayonet and grenade practice. Several battalions also fired on the 75-foot practice range and on landscape and machine gun targets.

A field problem was undertaken by the 213th coast artillery, the anti aircraft force, under the command of Colonel Clarence J. Smith, of Allentown. The artillerymen went on a road march which took them more than ten miles from the encampment. While enroute they located emplacements for machine guns, searchlights and three inch gun batteries.

Colonel Jackson W. Study's command, the 103rd Engineers of Philadelphia, were instructed in the use of gas and in methods of protection against its deadly fumes.

Tomorrow the guardsmen will leave the city of tents for field maneuvers in the surrounding country, eating four meals in the field which will be prepared in the rolling kitchens that accompany the troops.

Broadway Shows For Smaller Cities Plan Of Producers

"Talkies" To Give Reproduction Of Big Shows In Smaller Cities

(International News Service)
NEW YORK, Aug. 1.—Broadway shows for the smaller cities and towns of the country, with the original casts is the latest plan of theatrical producers. In the flesh and blood? Hardly. It's to be by the talking motion picture and will virtually mean the end of the theatrical touring companies.

Plans practically completed by A. H. Woods, the Shuberts, William A Brady and Arthur Hammerstein will confine the activities of the stars of the theatrical world to cities like New York, Chicago, Philadelphia, Boston and Detroit but a reproduction of their performances by the "talkies" will be available to cities, large and small, everywhere.

The producers mentioned have obtained control of the Vocafilm Corporation of America with offices and studios in New York, and are expected to begin making mechanical reproductions of their current theatrical successes in about six weeks, using the original cast.

The early Woods production of this season, "Jealousy", with Fay Baynter and Glenn Hunter as its stars, is expected to be one of the first plays presented. Others to follow in rapid order include "Fast Life," "A Man With Red Hair," an English play and a production in which Florence Reed will star. Several Shubert musical shows will follow in an effort to build up an extensive program for the smaller cities so that theatrical owners will be induced to install the Vocafilm process which is said to cost only about $3,500.

Plays may be recorded in the theatre in which they are being produced, the time required being about two weeks.

Houser Sets New Olympic Mark In Heave Of Discus

Bud Houser Hurls Discus Distance of 155 Feet 2 9-10 Inches

(International News Service)
AMSTERDAM, Aug. 1.—Bud Houser saved the American cause from an utter rout by repeating his performance of the 1924 games in winning the discus this afternoon with a toss of 155 feet 2 9-10 inches, establishing a new Olympic record. Jim Corson, San Francisco, who had made a new record of 154 feet 2 3-5 inches earlier in the competition, finally finished third, second place going to Kivi, the Finn.

Charges Woman Pulled Her Through Kitchen Window

Colored Woman Is Severely Cut In Altercation This Morning

Mabel Deer, colored, of Scioto street and West Long avenue, is suffering a severe cut on the left wrist and another one on her left shoulder as the result of being pulled through a window by her sister-in-law, Beatrice Deer, at 11:30 today.

The cut on the woman's wrist is serious, the glass having penetrated almost to the bone. The doctor was summoned immediately to sew it up.

Beatrice Deer is also injured on her left wrist.

When questioned by Officers Longstreth and Augostine, Mabel Deer said that for the past eight or nine months there had been bad blood between her and her sister-in-law. It culminated this morning when Mabel, who lives on the third floor of the Wach block, started down the stairs. On the second floor she was met by Beatrice Deer. The argument started. Then it was that Mabel was pulled through the kitchen window, which opens onto a landing of the building.

Doctors attended the women.

Bernice Martin, who lives with Beatrice Deer, was a witness to the affair. Officers Longstreth and Augostine answered the call from the police station, accompanied by Henry Dysart, former chief of police.

Americans Are Badly Beaten In Olympics Today

United States Sprinters And Hurdlers Suffer Defeats In Games Today

(International News Service)
OLYMPIC STADIUM, Amsterdam, August 1.—American disasters continued to pile up in the Olympic games today when their sprinters failed to win the 200-metre dash and their hurdlers could do no better than second, third and fourth in the 110-metre hurdles, both of these having been among America's favorite events in other Olympiads. The hurdle race went to Atkinson of South Africa, with Steve Anderson, Washington, finishing a bare foot behind him and Johnny Collier, Brown University, and Leighton Dye, Los Angeles, being third and fourth respectively.

Then, with Charley Borah being shut out yesterday and Charley Paddock and Hank Cumming following suit today in the semi-finals, the United States had only one surviving nominee for the 200 metre final. He was Jackson Scholz, the 1924 champion, and Scholz was driven back into third position at the finish

Yankees Have Another Bad Day At Olympic Meet

(International News Service)
AMSTERDAM, Aug. 1.—Americans had another bad day in the Olympic modern pentathlon today.

Fourth place was the best any of the Americans could do in the 800 meters free style swimming event. It was won by Pagini of Italy in four minutes 37 6-10 seconds. Lieutenant Audrey S. Newmann of the United States was fourth in five minutes 16 2-5 seconds. Lieut. Richard W. Mayo of the United States was 23rd in six minutes 18 seconds. Lieut. Peter C. Hains finished 26th in six minutes 2 3-5 seconds.

J. L. Montgomery, University of Pennsylvania, was eliminated in one of the heats of the steeplechase, dropping out of the event at the halfway mark.

APPEAL IS TAKEN

Notice of an appeal from the judgment for $72.65 given by Justice of the Peace Joseph J. Francis against S. E. Patterson for the use of King Brickley, was filed at the office of the prothonotary this morning.

DAILY EDITORIAL DIGEST

(Continued From Page Four)

State Journal (Rep.) says of Governor Smith's proposal to call a conference: "Of course, there is nothing to that offer. Conferences long since ceased to interest."

"What Mr. Hoover must guard against," advises the St. Paul Dispatch (Ind.), "is a vote of pretest in the rural communities, swinging to Smith without reflection or care about the main advantage. To prevent this, he must have something specific and satisfactory to offer to agriculture." The St. Joseph News-Press (Ind.) suggests that "to the platform makers of both parties, the crop fee was too hot to handle candidly. It may be that when the candidates and party spokesmen take the hustings, the question will be clarified, but the platform, despite the interpretation from Des Moines, leave it vague."

Supporters of Mr. Hoover are very confident of his intention and ability to handle the problem. "He understands the farm problem as well as does any man, and far better than his Democratic opponent," says the Albany Evening News (Ind. Rep.). "The farmers know the Republican party never was against them and is not now," adds the Indianapolis Star (Ind. Rep.). The Pittsburgh Post-Gazette (Rep.) holds that "some of the Western farmers may not like the Republican stand or the agricultural problem, but they may approve the party position in enough other ways to cause them to support it." The Cleveland News (Ind. Rep.) calls Mr. Hoover "a relief specialist," and believes he will apply that talent to the farm question. The Adrian Telegram (Ind.) emphasizes a message from Mr. Hoover to Iowans that "agricultural legislation would have the first place on his program if he is elected." The Duluth Herald (Ind. Rep.) thinks that "nobody doubts he is thinking about how to solve the problem practically."

On the other side of the question, the Portland Oregon Journal (Ind.) asks: "If Mr. Hoover is to lead agriculture out of the morass, as his supporters promise, why has he waited seven years while 2,000,000 farmers have left the farms to crowd into the cities, while farm values have decreased to the tune of $2,000,000,000, while farm mortgages have increased by $500,000,000, and while 4,000 banks in agricultural districts have gone to the wall?"

The Butte Daily Post (Rep.) contends: "The Corn Belt organizations cannot permit their indorsement of the Democratic plank to be passive. Indeed the assumption in political circles is that the conference will openly work against Hoover and for Smith.***The disaffection may be enough in some States to swing one or two of them into the Smith column."

"The farmers will defeat Hoover if they vote as they talk and as they believe," asserts the Raleigh News and Observer (Dem.), with the added comment that "there would be no shadow of doubt about the result if Smith had declared for the dry plank as he declared for the farm-relief plank."

The conclusion drawn by the Baltimore Sun (Ind. Dem.) is: "Fair-minded people will not overstress the reports that come from one source and another regarding the positions of the two candidates on agriculture. They will await the declarations, that are expected in the speeches of acceptance. But if they follow the news carefully, they may be excused for apprehensions that both candidates may go dangerously far to capture the farm vote."

Twenty Aliens Are Sent Back

DETROIT, Aug. 1.—The first attempt in this immigration district to nullify an immigration order classifying all aliens commuting to the United States for work, as immigrants rather than temporary visitors and requiring them to obtain immigration visas, was made today.

Twenty aliens recruited by H. Ely Goldsmith of Buffalo, N. Y., who terms himself an immigration expert, attempted to enter the United States from Canada on the Windsor ferry. They were taken before a special board of inquiry. Goldsmith attempted to obtain a writ of habeas corpus for their release, but it was denied in federal court. The aliens were ordered returned to Canada.

Rockview Convicts Still At Large In Mountain Section

(International News Service)
BELLEFONTE, Pa., Aug. 1.—With almost a week of freedom behind them, for the four convicts who escaped from a work gang at Rockview penitentiary last Thursday, today were believed to still be in the vicinity of Milroy and Reedsville.

A small force of guards, state and county police continued to guard highways and other avenues of escape as the search for the men took on the characteristics of a siege. Police have only sighted the convicts once, when they crossed a road near Milroy and exchanged shots with the officers.

Although their whereabouts is not definitely known, prison officials believe it will be only a matter of time before the men would be captured. The fugitives who escaped were Robert M. Ruane, William C. DeYoung, Harry Allen and Joseph Cetinski.

A large attendance was present at the services Tuesday night, quite a number of persons coming from Youngstown, Aliquippa, Sharon, Pittsburgh and other towns to witness the ceremonies.

The conductor, Rev. Abrahams, who is the pastor of the Sacred Heart church of Michigan City, Ind., speaks eight different languages, having traveled extensively in Europe, Asia and Africa. He is also representative of the Latin Patriarch of Jerusalem in this country and is commander of the Military Order of the Holy Sepulcher.

While in this city Rev. Abrahams is staying at the home of Father F. ... O'Shea pastor of St. Mary's church on North Beaver street.

This Man Says Konjola Ended Health Trouble

MR. W. E. ERK
Scavy Photo

Nervousness Banished By This Medicine; Also Restored His Appetite.

Twenty-two different roots and herbs combined with other recognized medical ingredients, go into the making of the new Konjola medicine. Sufferers from every section of New Castle are praising this compound after it relieved them of disorders of the liver, kidneys, stomach and bowels. Stubborn cases of rheumatism and neuritis have been ended. The Konjola Man is personally explaining the merits of this new compound, to vast crowds of people every day and at the same time many well known men and women are strongly indorsing this remedy. For instance, just a few days ago, Mr. W. E. Erk, 734 County Line street, this city, made the following statement to the Konjola Man who is at the Love and Megown Drug Store, 204 East Washington Street, New Castle. Mr. Erk is employed by the Pennsylvania Railroad.

"After the wonderful way Konjola benefited me, I cannot help but to praise this medicine to others", said Mr. Erk. "It strengthened my entire system and restored my health to me".

"Some time ago my system became rundown in general and as the day passed, I gradually became worse until I thought nothing would help me. I did not have any appetite and although the food I managed to eat did not harm me, at the same time, I was unable to gain any nourishment from it. Of course, this condition soon affected my nerves and the least bit of noise upset me. It was impossible for me to even hold a glass of water in my hands without spilling it. My work became drudgery to me and when I tried to rest my nerves kept me from being still for any length of time. When I went to bed at night I would roll and toss for hours before going to sleep and then when I did get to sleep, I was so restless that by the time I got up in the morning I felt almost as if I had not been to bed at all.

"However, all that is changed now, because I have taken Konjola and this medicine turned out to be exactly what my system had always needed. With every dose I could almost feel the soothing and healing effect it had on my system and every day I began feeling better. I was steadily gaining in strength until I now feel like a different person. My nerves are now in perfect condition and never cause me the least bit of trouble any more. Konjola also restored my appetite and made it possible for me to gain the proper nourishment from the food I eat. At night when I go to bed I know that I will have sound and refreshing sleep. I have more energy and vigor than ever before and it is a pleasure to do my work. Since Konjola gave me new and glorious health I feel that it is my duty to tell others about the splendid merits of this medicine and that is my reason for making this public indorsement."

The Konjola Man is at the Love and Megown Drug Store, 204 East Washington Street, New Castle, where he is daily meeting the public and introducing and explaining the merits of this remedy. Free samples given.

OWNER OF DOG LIABLE FOR DAMAGE CAUSED

Dogs Must Be Kept Under Check At All Times, Says Official

State Official Working In Lawrence County At Present Time

Pennsylvania, after more than a hundred years of experience with dog laws, is now solving the problem of the protection of the sheep and poultry industries from the sheep and poultry killing dogs, says an article in the July issue of the American Sheep Breeder and Wool Grower, a monthly published in the interests of American sheepmen.

Since 1922 the state has been responsible for the enforcement of the state dog law and not the counties or other local units, continues the article. And the results of this have astonisned even the most skeptical of the new order.

Enforcing Law Here.

J. W. Brewster, agent of the bureau of animal industry of the Pennsylvania department of agriculture, who is a member of the state dog law enforcement unit, says the law is a valuable one and is being enforced rigidly. Mr. Brewster's territory includes both Lawrence and Beaver counties.

According to the local agent there are 23 such agents of the department scattered over the commonwealth, with whom the enforcement of this law is entrusted. The men travel about over their territory, continually checking on the licensing of dogs. The owners of unlicensed dogs are prosecuted, dogs running at large are taken up or killed, and frequently the homeless dogs are found homes where they receive proper attention.

Owner is Liable.

Two important sections of this law are these, Mr. Brewster said. First, the owner of any dog is liable for any damage his dog may cause, and second, that all dogs must at all times wear a collar and tag.

"The fine for violation of these," Mr. Brewster relates, "is not less than $5 nor more than $100, or 30 days in jail, or both. Any person who violates or who refuses to comply with any of the provisions will be subject to arrest."

In stressing importance and the valuable result of the new regulations concerning the dogs, Mr. Brewster says that he fully believes the statement in the magazine's article that "the sheep industry is taking a new lease on life in Pennsylvania," partly as a result of this protection. The article reads:

On January 1, 1928, for the first time since 1919, an increase was reported in the number of sheep on farms when compared each year with the preceding year. This increase amounted to 37,000, which is 15,000 more than the five-year average from 1923 to 1927. This increase has not been confined to the leading sheep counties, but new flocks have been established and small flocks increased in other counties, particularly those in the northwestern and northern districts of the state.

In closing his statement Mr. Brewster sent forth an urge to the farmers and others of Lawrence and Beaver counties to hold their dogs in check and to not let them wonder about, on tours of destruction, and also expressed the hope that residents of the counties under his jurisdiction would comply with the law in all its respects.

P. H. C. To Gather At Cascade Park

Annual Outing Is Scheduled For Thursday; Program Is Outlined

The annual outing for the members of the Protected Home Circle of Western Pennsylvania and Eastern Ohio and their friends will be held Thursday August 2 at Cascade park. A large delegation is expected at the part as the guests of the New Castle Circle who are sponsoring the event.

A program has been arranged by the committee which includes sports and stunts for the young and old alike. They follow:

Ball throwing contest for women, 25 yard dash for men, 25 yard dash for women, three-legged race for men, three-legged race for women, 25 yard dash for boys under 12, 25 yard dash for girls under 12, hop step and jump for men, hooch race for women, hooch race for men, watermelon race for boys and girls, pie eating contest for women, cigar race for the men, wheelbarow race for women, 25 yard dash for children under 6, fat men's race and the fat women's race.

There will be a special prize given to the person holding the oldest membership in the order and to the mother having the youngest child present. Children will all receive prizes.

There will be free dancing from 2 until 5 in the afternoon. Coffee will be served in the grove from noon until 2 and then from 5 until 7 in the evening.

A large crowd is expected and it is hoped that the weather for the day will be such that the outing is a success.

County Officers Make Liquor Arrest At Brent

County Detective W. G. Fleming and members of the state police force on Monday night visited the Brent district and arrested Albert Rico, when a quantity of liquor was found in his possession. He was charged with violation of the Snyder Act in possessing liquor before Justice of the Peace J. B. Rodgers of Brent. Rico gave bail for his appearance at a hearing to be held Thursday.

The Diary of a New Yorker

by CLARK KINNAIRD

Exclusive Central Press Dispatch to New Castle News.

NEW YORK, Aug. 1.—Some social and personal items:

Mr. James Walker, our mayor, is expected to be in town some day this year.

Miss Anne Bennett, the poetess, now is a blonde.

Mr. Charles A. Lindbergh took a trip last week, as usual. A rolling stone gathers no moss, Lindy.

Mr. John D. Rockefeller, well known as the grandfather of Mathilde McCormick, who married a Swiss riding master, gave away a dime last week.

Mr. Will Rogers, who is in town and out, has a new joke. "But folks like old ones the best," says Will.

Dawson Berry says everything is going to go dark before his eyes if talking pictures reveal that Lon Chaney is a tenor.

There are several new guests at the Hotel Pennsylvania.

There is said to have been a fight here the other day, but no one was arrested.

* * *

"Right off the steamer" is a line delivered with every quart of hooch sold in New York. Well, it has been discovered that most of the town's supply of absinthe is made out of regular embalming fluid, and considerable of the "Scotch whisky" from lacquer thinner redistilled.

* * *

Despite the fact that it has been shown many times that most of the 20,000 speakeasies in New York get their supplies from practically the same sources, gullible New Yorkers and visitors suppose that if a place charges a lot of money for hooch, then it's safe to drink.

There is a place in the East Fifties where an admission charge of $100 a couple is made. For this food, cocktails, wine, entertainment and "service" is provided. The proprietor gets his hooch from the same warehouse that supplies a speakeasy around the corner where "red eye" is 50 cents a "shot".

* * *

Like Charley Driscoll, who writes "The World and All," I like to interview the obscure. They don't have press agents, and they don't use masks. A "red cap" in Grand Central station told me:

"Women are not as generous as men in tipping, but neither do they give us as heavy loads to carry. Ten years ago, when I first became a porter, the heaviest bags belonged to women; today they belong to men. Women these days travel light."

Nevertheless, cartoonists, who can't spell either, still picture women as taking up most of the space in vacation trunks with their clothes.

* * *

Chauffeurs of private cars resort to all sorts of devices to pass the time away while awaiting in front of houses, hotels, stores, etc. Walking in West Forty-fourth street the other afternoon, I noted that few chauffeurs doze at their wheels. Most of them read, some of them are part-time students in local schools and study. A few practice on muffled musical instruments. One I know of practices drawing. Another writes stories and has had some of his work in magazines.

A Park avenuer was surprised not long ago to pick up his favorite "class" magazine and find that the principal fiction story was the work of his chauffeur. He promptly fired him, giving as his reason: "You have talent, but until you have to earn your bread and butter with your pen you'll never properly develop it."

Mercer Officers Get Slot Machines

Add Spoils To County Treasury; Were Taken In Raids Last Week

MERCER, Pa., Aug. 1.—The sum of $40.10 taken from eight slot machines by officers in raids of last week was added to the country treasury here today by order of Judge J. A. McLaughry on petition of District Attorney Leo McKay, who asked that the machines be legally confiscated.

They will later be broken up by officers on court order.

The machines were taken from the Eagles clubs of Farrell and Sharon, the German Home and Italian club in Farrell and speakeasies.

RICHMAN'S CLOTHES

ESTABLISHED 1879

RICHMAN leadership in the essentials of clothes manufacturing and marketing is responsible for the undisputed *value* leadership of Richman's Clothes.

These essential factors are: first, unexcelled factory facilities and equipment; second, huge cash sales and practically unlimited cash buying power; third, the 100% loyalty and high efficiency of skilled employes who own a $6,000,000.00 interest in this business; fourth, direct-from-factory selling through our own economically managed stores, without a middleman entering into the transaction.

all $22.50

Your choice of any Suit, Topcoat or Tuxedo Suit at one price

Without these exclusive Richman advantages, it is obviously impossible for those who imitate the Richman price and selling methods to match Richman's Clothes in value. In fact, you simply cannot find clothes so smartly styled, so rich in quality of materials, so beautifully tailored, at a price anywhere near $22.50—the standard price everywhere and every day for any suit, topcoat, or tuxedo suit you choose from our big stocks.

No American Millionaire Wanted Old Paris Hotel

By WILLIAM IVY

PARIS, Aug. 1.—The auction sale the other day of the Hotel de Lauzun, with its historical associations and magnificent interior decorations, furnished a surprise—in that there was only one bidder above the upset price of four million francs. That bidder was the city of Paris, which will transform the property into a museum.

Lovers of old Paris may well rejoice at this solution, but it was astonishing to most people that no American millionaire was willing to pay a mere $160,000 for the place. The Isle St. Louis, where this famous old residence is situated, is a favorite place of residence for Americans, hundreds of whom have apartments and dwellings there. The Quai d'Anjou, on which the Hotel de Lauzun faces, is perhaps the most attractive corner of the island, being bordered by giant trees, and having an outlook over the fascinating old Marais quarter.

The City of Paris had once before—in the previous century—owned this property for a time, but sold it for 300,000 francs, which then represented $50,000. The purchasers, however, appear to have had financial reverses, and it is rumored that the pressure of mortgages was too much for them.

Just what kind of a museum will be installed there does not seem to be decided. I am told the Beaux Arts commission leans toward restoring the place as a fashionable family residence of the early eighteenth century, and exhibiting it as such. That period, when France was virtually the only united nation on the European continent, and when Paris was the fountain-head of all art, culture, and refined social life, is irresistably fascinating to all who come into contact with it. Despite the royal glories of Versailles, visitors to Paris would be enchanted with an opportunity to study the intimate life of a noble family of that brilliant epoch.

Reynoldstowners Meet August 14

August 14 is the date set for the 21st annual meeting of this popular event, the Reynoldstown School Reunion, and the committee on arrangements have completed all details and indications assure as much interest and enthusiasm as in any of their past picnics.

This notice is only a reminder that the event is not to be of less importance than any held in the twenty former years. Those at a distance are notified to be present and some have given notice that they are eager to be present. A further notice will be published in The News. Don't forget! August 14.

NEW OWNERS FOR 7TH WARD RESTAURANT

The Venice restaurant on Liberty street in the Seventh ward has been bought by two well known New Castle citizens, Sam Delippo and Anthony Perrotta. They have already taken charge.

The dining room has been enlarged to double its former capacity and other improvements have been made for the comfort of the patrons of the restaurant. Italian cooking and dishes that will please all will be the motto of the new owners. The place will be open day and night and parties can be taken care of at most any hour of the day or night.

Sheriff Kills Two Suspects In Chicken Robbery

Trio Surprised By Sheriff And Deputies In Act Of Stealing Are Fired Upon

(International News Service)

RAVENNA, O., Aug. 1.—Two men were killed and a third was probably fatally wounded in a gun battle with the sheriff of portage county today when he sought to arrest the trio as suspected chicken thieves.

Answering a call that chicken thieves were operating near here, Sheriff J. P. Ferry and a deputy encountered the three men, who resisted arrest. One of the group knocked the sheriff down and while lying on the ground the latter opened fire.

The dead: Harry Gipe, 28, and Ralph Brown, 27. Ira Clogston, 24, was wounded. All are of South Newberry.

Cheats Chair Twice On Friday The 13th, Slayer Wins Appeal

(International News Service)

RALEIGH, N. C., Aug. 1.—Larry Newsome negro slayer on Death's Row here, doesn't hold any superstition regarding Friday, the 13th.

On two occasions Newsome has been sentenced to die in the electric chair for murder yet each time an appeal to the supreme court saved him.

The last time when preparations had been made for the execution it was discovered that while the trial judge had sentenced the negro to die on Friday the 13th he also had specified a time of 40 days in which he could appeal.

The time hadn't expired when the fateful Friday, the 13th came. Now Newsome has a lease on life until in the fall when the supreme court reconvenes and he can perfect his appeal.

Illinois Miners And Operators To Confer On Wages

(International News Service)

CHICAGO, Aug. 1.—Formal discussion expected to lead to a new wage scale agreement between Illinois coal miners and operators will start here tomorrow.

After a conference here today between operators and miners it was decided to name two wage scale subcommittees of nine members each, who will meet tomorrow morning at 10 o'clock for discussion of a wage agreement.

The operators immediately announced their committee and the miners went into separate session to select their representatives.

Mother Of Three Children Victim As Home Burns

(International News Service)

PHILADELPHIA, Aug. 1—Mrs. Nellie Sokil, 32, mother of three children, was burned fatally today and her husband Frank, 34, seriously burned when trapped by flames in their Kensington home. The blaze was started by the explosion of a still, police said.

The three children, ranging in age from 6 to 12 years, were rescued by firemen.

The husband later was arrested, charged with operation of a still and illegal possession of liquor. He was held in $800 bail for a further hearing August 8.

Mt. Scott Scaled By Four Americans

(International News Service)

JASPER PARK, Alberta, Aug. 1.—Mount Scott, 10,826 feet, which took its name from the Scott of Antartic fame, and is one of the most lofty peaks on the Continental divide between Athabaska pass and Fortress lake, has been scaled for the first time.

Its American conquerors, Dr. J. Monroe Thorington, of Philadelphia, author of "The Glittering Mountains of Canada." Dr. Max Strumia, member of the American and Italian Alpine clubs, also of Philadedphia, William Hainsworth, of New Haven, Connecticut, and Julian Hillhouse, of Newton, Connecticut, have just returned by pack trail from their camp at the head of the Athabaska river. With them has come the first word of their successful ascent.

After leaving Jasper Park Lodge, somewhat more than two weeks ago, the climbers established a high camp in an ice basin at an altitude of 8,500 feet. From here they approached the top of Scott.

The ascent was made twice, the mountain being divided into two peaks, and the alpinists gaining the top of the southern eminence found it overshadowed by that of the north. Accordingly, they had to retrace their steps and go through the perils and rigours of a further ascent. Climbing conditions were good, but trail travel, because of high water, presented some difficulties.

Mount Ermantinger, 10,080 feet and Mount Evans, 10,460 feet, were also conquered by the party. Mount Evans is claimed as another first ascent.

Before returning eastward the climbers are engaging in more alpine work in the Maligne and Columbia valleys.

England has decided not to collect from the former Confederate States all of her Marines having other work at present anyway.

TEST MODEL OF PLANE TO CROSS OCEAN WITH 60

NEW YORK, Aug. 1.—Completion of tests on a model of a seaplane designed to carry 60 passengers across the north Atlantic ocean in twenty hours was announced today by the O'Connor Trans-Atlantic Airways, Inc.

Present plans calls for construction work to begin immediately with the probability that the first plane will be completed in four months.

The O'Connor company has been organized to develop a project looking to the establishment of trans-atlantic and coastwise South American and Bermuda routes.

The proposed plane is the invention of John P. O'Connor of New York. It will have a wing spread of 160 feet and will weigh 70,000 pounds under full load. Its power plant will consist of eight air-cooled motors, two of which will be held in reserve.

Entirely new principles in structural design are to be used, Mr. O'Connor said, which "will make possible the carrying of the large fuel load necessary to cross the ocean and at the same time to carry pay loads."

Peach Growers Facing Losses

Pennsylvania Orchardists Claim Low Prices Paid Not Profitable

(International News Service)

WAYNESBORO, Pa., Aug. 1.—Orchardists in this section of the state are faced with the prospect of low prices for their peach crops this year. They point out that of the 15,000 carloads shipped from the south so far this season the average price is between 75 cents to $1 per bushel.

Peach growers here claim that if this price continues they will barely be able to make expenses and some will probably suffer severe losses. Orchardists in this district will start picking the Carmen, Belle and Hiley peaches within the next three weeks. The Elbertas will be ripe the latter part of August.

DEADLY POISON IS USED AGAINST RATS

(International News Service)

ERIE, Pa., Aug. 1.—Enticing the rats with poisoned food, two modern Pied Pipers recently attempted to rid the Erie county prison of the rodents for the modest sum of $15. Hamburger, apples and sweets containing barium, a deadly poison, were used by the men instead of 'charmed music".

Woman Confesses Strangling Baby

(International News Service)

POTTSVILLE, Pa., Aug. 1.—Police announced today that Mrs. Vera Berger, 24, of St. Clair, had confessed that she strangled her eight-months-old baby to death. The infant's body was found in the cellar of the home of George Barnes, at St. Clair yesterday. The woman was Barnes' housekeeper.

According to police, Mrs. Berger told them that she had used a napkin to choke the child to death. Police quoted her as saying, "I killed the baby because I have to earn my own living and I could not do it with the child claiming my attention." Mrs. Berger's husband is an employe of the State hospital near here.

Police said the child had been missing for two weeks. When the infant's body was found officers said she first told them that the child died of whooping cough.

Police Arrest Alleged Thief

John Bologan is being held for alderman's court at the New Castle police station, following his arrest at noon today by Officers Logan and Longstreth, on a charge preferred by the Kline Lumber company, alleging that he stole lumber in large quantities.

Plan Campaign In Pennsylvania

Chairman Martin Announces Appointments To Aid In Hoover Drive

WASHINGTON, Pa., Aug. 1.—Important appointments in the shaping of plans for the fall political campaign in this state were announced here today by General Edward Martin, chairman of the Republican state committee.

Foremost of these was that of Boyd Hamilton of Harrisburg, who will be an assistant to General Martin. Mr. Hamilton is widely known. Previous to becoming secretary to Governor John S. Fisher, he was engaged in newspaper work at the state capitol.

The members of the publicity committee, as announced by General Martin, are as follows: John E. McKirdy, Pittsburgh, Joseph Barton, Philadelphia; and Robert Ginter and Boyd Hamilton, both of Harrisburg. All are veteran newspaper men and are held highly in that profession. They will outline the publicity plan of the state committee, which will be conducted by Mr. Barton at the Republican headquarters at Philadelphia.

General Martin is optimistic, and predicts that Pennsylvania will roll up the largest majority for Herbert Hoover of any state in the Union. All elements of the party are united, he says.

New York Man Is Murder Victim As He Sleeps In Home

(International News Service)

NEW YORK, Aug. 1.—Louis Meyerson, 40, was shot and killed early today as he lay in bed. His wife, Rebecca, told police he was killed by one of two intruders, who were young and swarthy.

Two straw hats, left by the murderers in their flight, furnished the only clues. Mrs. Meyerson said her husband had no enemies.

Investigate Report Store Is Entered

Garage doors at the rear of Hitchcock's store on Grant street were found unlocked when Officers Samuels and Lockhard investigated a call which came into the New Castle police department this morning at three o'clock, charging that someone was trying to break into the store.

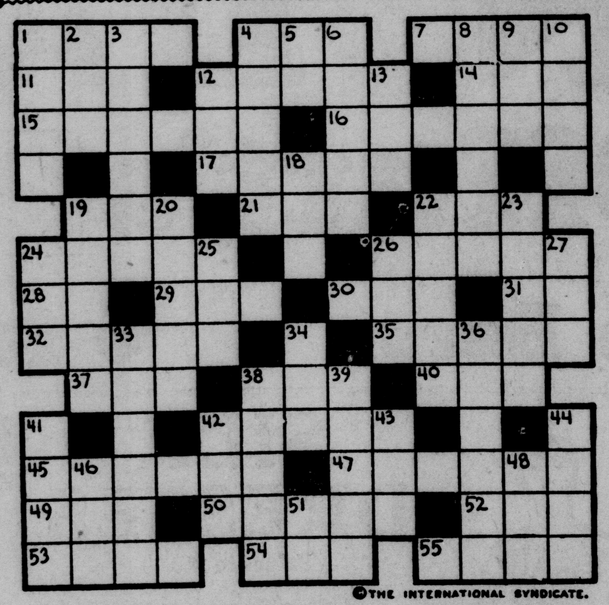

The officers did not find anyone about the store. The owner was notified and he locked the garage doors, which opened into the basement.

FLYING SCISSORS

At this point in the story Bobolink cocked his feathered head on one side and chuckled.

"If we could have blushed we would have when we found ourselves discovered 'listening in' on a conversation not meant for our ears. We were so embarrassed, wifie and I, that we must have flown away in another second. But before we could get our sense of direction, Nightjar chirped under his breath but not so low we couldn't hear him:

"'Unless I am very much mistaken, they are the same two birds who have followed me all the way from the groves of spice. I think they must be traveling for their health or to see the sights, since they seem to be bound for nowhere in particular. Perhaps they are lonely. Shall we ask them over?'

"Lyre-Tail must have said 'yes,' for almost immediately Nightjar called:

"'Come over and join us, little birds.' And as we accepted his invitation, just a little ashamed at being caught hanging around, he continued:

"Meet my cousin, Lyre-Tail, the best chap in the world, even if his tail is not much good to himself or any one else, and let me introduce myself. I am Mr. Nightjar.'

"For a moment I forgot my manners.

"'Dear me, how mixed one does get trying to keep track of who's who in these parts. Your cousin called you Scissors-Tail, and now you say your name is Nightjar. Which is it?"

"'Both,' answered the fellow, chuckling. 'You see, little birds, it is like this: Once upon a time a Two-Legs saw one of my ancestors moving his tail so—open, close; open, close—and he said it reminded him of a pair of scissors. My relative flew home and told about it, and ever since then Scissors-Tail have we been nicknamed by the other feathered folks. But our real name is Nightjar, given to us perhaps because we fly by night and, seizing all the harmful insects we can find, bottle them up where they can do no damage—in our bodies.

"THE HUMANS SAY I OPEN AND CLOSE MY TAIL LIKE A PAIR OF SHEARS"

"'I belong to the Goat-Sucker family, so Goat-Sucker is another name of mine, although I don't like it at all. By the way, I am a distant cousin—and for that matter so is Lyre-Tail here—to Whip-Poor-Will and Chuck Will's Widow. Both live in the North. It may be you know them.'

"That bird was just as delighted as could be when I told him that wife and I were old friends of Whip-Poor-Will's and he sent him all sorts of messages and made us promise to visit Chuck-Will's Widow on our way through Carolina."

The new Chrysler-built Plymouth offers entirely new style, size, comfort, ability and distinction to the millions who desire and deserve quality and performance at low price.

These buyers, measuring what others offer at or near this price, find this newest Chrysler product giving far more dollar-for-dollar value in full size, in style and in every phase of performance, than any of the few other cars in the lowest-priced group.

For no other than the Chrysler-Plymouth gives for style the new chromium-plated slender-profile radiator, the new type fenders, the pleasing new arched window silhouette. No other gives for comfort and elegance, such full-sized, roomy, luxuriously upholstered and finely fitted bodies.

No other gives for performance true high compression through the "Silver-Dome" high-compression engine using any fuel; and for safety, the surety and ease of light-action, internal expanding hydraulic four-wheel brakes with squeakless moulded brake linings.

And these are only a few of the features unique to Plymouth which are convincing thousands upon thousands that the Plymouth is the standard whereby to judge values in the lowest-priced fields—that anything less than the Plymouth gives is less than your dollar's worth. (1928)

Women's Great Chance To Vote

Issues This Year Give Women Chance To Show Real Influence

LINE UP ON SIDE OF HERBERT HOOVER

(Special To The News)

WASHINGTON, D. C., Aug. 1.—women will take a more active part in the presidential campaign than ever before in the opinion of Mrs. Alvin T. Hert, vice chairman of the Republican National committee. Opening headquarters here Mrs. Hert said she expected the Hoover-Curtis ticket to poll the greatest "woman vote" ever accorded candidates.

"It is the first time women have had to really make themselves felt nationally," asserted Mrs. Hert. In 1920 they had too recently received the right of suffrage to be sufficiently organized or sufficiently familiar with politics to be effective. In 1924 there was virtually no contest. The women knew that their choice—Mr. Coolidge—was certain of both nomination and election. This year the women know and understand politics. They have had the benefit of eight years of experience. They have in this Hoover-Curtis ticket two men who are close to their hearts.

"In other words, Herbert Hoover and the 1928 election bring to women the opportunity to vote as they think for all that is clean in government and good in life. That opportunity will not be overlooked."

The anthracite coal industry in Pennsylvania in 1927 shows fewer miners on strike and less men-days lost on account of strikes than in any of the preceding five years according to the Bureau of Mines of the Department of Commerce. The reports show there were in 1927 a total of 20,478 miners on strike as compared with 145,376 in 1926, with 147,928 in 1925, with 71,273 in 1924, with 135,585 in 1923 and with 142,442 in 1922.

The number of men-days lost in 1927 because of strikes and lockouts was 159,242. This figure compares with 5,990,477 in 1926; with 15,269,506 in 1925; with 1,143,630 in 1924; with 2,929,418 in 1923 and with 19,623,026 in 1922. In 1922 and 1925 there were general shutdowns in the anthracite industry because of strikes.

Total production of Pennsylvania anthracite last year amounted to 71,513,896 gross tons, valued at $420,942,000 and compares with an output of 75,390,582 gross tons, valued at $474,164,000 in 1926.

Pennsylvanians who will have before them consideration of an amendment to the Constitution providing for a bond issue for reforestration purposes will be interested to know that the United States is the greatest wood user in the world with a record of using more saw timber than all the other countries together. The United States also accounts for the consumption of two-fifths of all the world's consumption of timber of all kind according to the Forest Service of the Department of Agriculture. The bureau estimates 80,000,000 acres of land capable of producing timber crops.

More and more wood is needed each year, the bureau points out, with over a billion board feet needed in the coal mines, a large proportion of which is required in Pennsylvania mines for mine props and other uses.

Restrictions against the use of foreign materials and supplies in the construction and maintenance of government buildings and in the purchase of government supplies have been strengthened by the Bureau of the Budget. Under the new regulations preference must be given to articles and materials of domestic productions where conditions of quality and price, including duty, are equal.

Compensation and insurance totalling $33,410,991.46 on 493,477 claims was paid by the United States Veterans bureau during the month of June. Compensation to dependents of deceased war veterans amounted to $2,566,040 paid on 86,562 claims and total compensation payments were $15,262,856 on 344,098 awards.

Workmen of the United States will produce 4,000,000 of the 4,838,725 total of automobiles to be manufactured in 1928 according to the Department of Commerce. A survey recently completed shows 200,000 cars from Canada; 280,000 from England; 200,000 from France; 11,500 from Austria; 8,150 from Belgium; 15,360 from Czechoslovakia; 200 from Denmark; 91,000 from Germany; 860 from Hungary; 55,000 from Italy; 675 from Spain; 2,000 from Sweden; 1,600 from Switzerland; 250 from Japan and 2,130 from Russia.

Effective use of the by-products of agriculture now give the United States a higher industrial utilization of raw material than any other country, according to Dr. Henry C. Knight, Chief of the Bureau of Chemistry, Department of Agriculture. The United States was widely criticised in the past for wasting its natural resources and agricultural materials.

Assessment and enrollment of the large army of men and women who have never before participated in politics is to be actively undertaken in Pennsylvania by party leaders who are supporting the Hoover-Curtis ticket. From all sections of the state reports have reached Washington that men and women who have never voted are now anxious to cast their ballots for the Republican ticket. The large percentage of women who are actively taking a part in the campaign suggests the largest registration of the female vote since suffrage was granted.

COLLEGE TOWER NEARLY COMPLETE

Little Work Yet To Be Done To Complete Westminster College Tower

(Special To The News)

NEW WILMINGTON, Aug. 1.—With only the affixing of the flagpole and a little masonry work lacking, the stone work of the memorial tower of the new college administrative building now under construction here is practically complete. Rising far above any other peak in the little college town the new tower is certainly a fitting tribute from the new physical college to the old.

Other construction work is proceeding with like rapidity here, the moving company having two more houses well on their way to the new situations.

An informal prayer meeting was held in the ladies parlor of the local United Presbyterian church last night and another is scheduled for Thursday evening. Both of these meetings are held in connection with the approaching missionary conference.

SERVEL

6 reasons why you will want the new Servel

1. Greater beauty and simplicity in design—inside and out.
2. Better construction and finish. Heavy pressed "Armco" steel with one-piece lining of porcelain.
3. Simpler, sturdier mechanical equipment—quiet, fool-proof and more economical to run.
4. The coldest refrigerant—hence the most efficient—in household use.
5. Greater freezing capacity—more ice trays—more cubes—easier to handle—quick to freeze.
6. Better temperature control—entirely automatic. No delicate devices to get out of order.

You can buy Servel on easy terms

Any of the Servel models, as well as the Servel installation in your own refrigerator, can be purchased for a moderate first payment and the balance spread over a convenient term of months. Ask for details.

National Grange Plans Homecoming

Sessions To Be Held At Washington, D. C., November 14-23; Expect Thousands

A great homecoming to the birthplace of the grange is the central thought which promises to make the National Grange sessions at Washington D. C. November 14 to 23 the greatest gathering of organized farmers that ever was held.

Thousands of farmers throughout the country who have planned to take their families for a visit to Washington will grasp the opportunities presented when the combine a sight seeing trip with a session of the national grange.

An elaborate program of prominent speakers, entertainment, visits to historic spots is being arranged by the Potomac Grange assisted by the Maryland State Grange and the granges of Virginia.

The railroads have granted reduced rates and some will run special trains to Washington for this event. One bus party from Oklahoma is already completing plans to attend. Special parking facilities will be provided for those who come in their own cars.

Doctors say Dripco-made Breakfast Cheer coffee is really beneficial

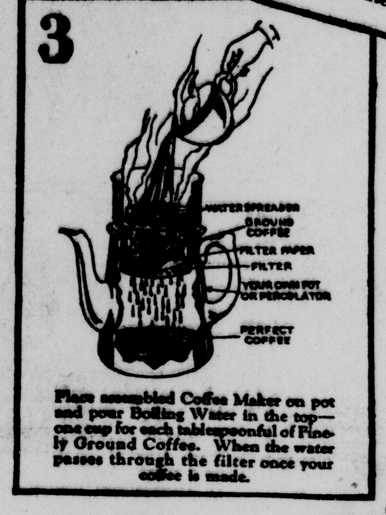

As Simple as 1-2-3

Place the Fibre Silk Filter Paper on the perforated bottom of the filter.

Pour on top of Filter Paper one tablespoonful of Breakfast Cheer Coffee—finely ground for filter use for each cup.

Place assembled Coffee Maker on pot and pour Boiling Water in the top—one cup for each tablespoonful of Finely Ground Coffee. When the water passes through the filter once your coffee is made.

In a test conducted by prominent scientists to determine the actual effect of coffee on the human body, the belief that the beverage was harmful and habit forming was proven unfounded.

The test shows that *'when prepared by the drip filter method, coffee gives comfort, inspiration, augments mental and physical activity, and is highly advantageous with respect to 90% of normal individuals'.*

Now you can *drip filter* coffee in your own home with the Breakfast Cheer Dripco Coffee Maker. The flavor is infinitely better.

Respect White Line, Is Highway Warning

HARRISBURG, Aug. 1.—Passing or parking at points where a white line or other pavement marking is found on the highway was condemned today by the Pennsylvania Department of Highways, in a statement, as a dangerous practice, pointing out that in most cases it undoubtedly is reckless driving.

Familiar pavement markings aside from the white line are the "R. R." with the checkered design and the word "Slow." It will seldom be found possible to pass another car at one of these markings and compete the passing before reaching the point of danger indicated. In both instances the act would be illegal.

The code prohibits crossing a railroad crossing at grade while abreast of another motor vehicle. A penalty is provided for passing another vehicle at a highway intersection. Parking at any of these points, unless the car can be driven entirely off the improved portion, is dangerous and selfish. It is bound to inconvenience every passing motorist, and often contributes to an accident. In most cases it is impossible to park in such a fashion and still remain within the legal rule, as to vision ahead and to the rear, and other dangers arise when the motorist drives back upon the highway while unable to see approaching traffic.

In every section marked by traffic line, with or without other marking, the car should be brought under control with the indication that there may be a slowly moving or stationary vehicle in the road beyond the summit or around the curve, or that there may be a vehicle or railroad train at the crossing.

Russians' Love Of Talking May Ruin Sovietism

By IDA P. NELSON
International News Service Staff Correspondent

CARMEL, Cal., Aug. 1.—The average Russian peasant likes to talk too well. That's the reason, according to M. Maissainoff, eminent classic Russia author, that the Communistic party is gradually exhausting itself and will soon fade before a new regime, probably fashioned along radically different lines.

Maissainoff has arrived here with his wife from Moscow. He is touring the United States and will return in a few months to his vast estate at Soutchi on the Black Sea where he composed his two most famous books, "Legends of Oceania" and "Legends of the Island of Mangareva."

The suggestion that there might be a return of the empire in Russia is fantastic, Maissainoff said, although he asserted that the strength of the Communistic party is spent.

Grain Shortage

"The Soviet system of government is not, as many people believe, an invention of the Communists," he said. "It is a system of government adopted after the revolution of 1905 which the Bolsheviks found agreeable when they seized the power in 1917.

"There is a grain and hence a bread shortage in Russia, still, even now when the greater part of the peasantry has owned its land for the past ten yaers. As bread is the main food of the peasants, the situation is vital.

"The Communists have been forced to report to the so called capitalistic system of banking and credits and, in desperation, have called in outside experts in every branch of educational and agricultural knowledge.

"It will be many years before the Russian peasant learns to work for his own food, particularly without a taskmaster. The population of Russia increases faster than its production and only under the estate system was the food situation met successfully.

"Russians are very fond of talking and have yet to learn that deeds, not words, are needed in agriculture. Famines will continue, but with lessening severity as the peasants develop in knowledge. But I am confident that when they reach an efficient educational basis they will not be satisfied with Communism."

Admires America.

Maissainoff is a great admirer of America, its progress and its ideals.

Camilla Daniels, who has translated into English a number of his books, lived in Carmel, as does his old friend Albert Rhys Williams. Maissainoff believes that Williams understands the Russian peasant as no other westerner does. Their friendship ripened during Williams' five-year visit to Russia, during which he visited frequently at the Maissainoff estate.

A graduate of the Polytechnic Institute of Petrograd, Maissainoff has a brilliant war record. After recovering from serious wounds in battle, he returned to the front as a war correspondent.

Malloy Surrenders Self To Officers

New Castle Boy Wanted In Youngstown For Passing Checks Gives Self Up

(International News Service)

CLEVELAND, O., Aug. 1. — Police here today are awaiting word from Youngstown, O., authorities in connection with the voluntary surrender of William Malloy, 22, of New Castle, who said he was wanted in Youngstown on charges of passing worthless checks.

Malloy, who said he was once a student at the University of Pennsylvania, gave himself over to police yesterday. He said he had been roaming the country and that he was "broke." Malloy told police that he arrived in Cleveland several days ago and that he decided to surrender himself.

Regular Schedule For Rum Runners

(International News Service)

LORAINE, O., Aug. 1.—How rum running is carried on despite the vigilance of customs officials along the shores of Lake Erie, was described here recently by a reputed smuggler. The runner, who, it was said, had imbibed somewhat freely of the cup that cheers, on the day he told his story stated that a regular schedule was maintained daily between Canada and a point near Cleveland. He declared a boat, carrying a cargo of 200 cases of beer, shoves off each night from Canadian shores for American warehouses, after taking aboard cargo during the day.

The beer, which costs about $2.50 per case in Canadian government stores, brings from five to six times that sum in the United States, the runner declared.

DEMOCRATIC NATIONAL CHAIRMAN'S WIFE RUNS FARM

While John J. Raskob, Democratic national chairman, is busy with the presidential campaign of Alfred E. Smith, his wife is going ahead with an experiment in scientific farming at Centreville, Md., which she hopes will help solve the problems of two American industries, agriculture and textiles. She also tends to the wants of her 11 children. Her flax farm experiment has been a great success and many of her neighbors are adopting her methods. Amnesia Parson In Raleigh Prison Will Turn Evangelist

(International News Service)

RALEIGH, N. C., Aug. 1.—A Methodist minister who flitted across the front pages last year because of his too many marital unions, and who is now serving a sentence in State Prison here for bigamy, expects to turn evangelist when he is released.

The clergyman is the self-styled "amnesia parson" Rev. Willis T. Jordan, of Columbus, Ga., who was arrested in Grand Rapids, Mich., after he disappeared from his Georgia charge.

He was alleged to have the three wives at the same time, although it was proved he was only married twice when he was tried and convicted for bigamy at Charlotte, N. C., in the fall of last year.

The "amnesia parson," who works in the prison chairfactory here, has from one and one half to two years to serve. Governor McLean of North Carolina recently declined to grant him a parole when a Charlotte Methodist minister made an appeal on the convict's behalf.

Failing in an attempt to be named prison chaplain, the evangelistic idea formed in the parson-convict's mind, and he announced his plans to begin on a tour of the country just as soon as prison gates open for him.

Whatever betide the signs are promising for a heavy straw vote this year—The Bellingham Herald.

Capitol Doctor Attends Robbins

Colonel Robbins, Injured In Plane Ride Will Take Week Or More Rest

(International News Service)

SOMERSET, Pa., Aug. 1. — Although the condition of Col. Charles Burton Robbins, assistant secretary of war who was injured while flying over Somerset Saturday, is improved, he will not return to Washington for a week or more, according to an army physician sent here from Washington to attend him.

Col. Robbins sustained a broken collarbone and two fractured ribs when he was thrown to the floor of the plane while he was attempting to change seats as the plane approached the figged-capped Alleghenies. The plane, piloted by Lieut. E. R. Quesada, was enroute from Columbus, O., to Washington, following a 5,000 mile air inspection tour.

35,000,000 Votes Expected In Fall

Parties Are In Stupendous Drive To Register All Their Members

WASHINGTON, Aug. 1. — More than 35,000,000 people, the greatest turnout in the history of American politics will settle the fate of Herbert Hoover and Al Smith in the November election.

Both the Republican and Democratic national committees are engaged today in the most stupendous campaign of voters' registration ever undertaken in this country.

As the result of their joint efforts and of the overwhelming interest caused by the personalities of the candidates and the deep-rooted prohibition and religious issues, the party leaders agreed that the election will dwarf the record of 1924, when 29,099,131 voted.

The total vote of 1924 was: Coolidge, 15,725,016; Davis 8,336,624; La Follette, 4,230,473; all others, 157,013.

It is the taking of those figures as a barometer that has caused the Republican chieftains to outmatch their own capable efforts in the past.

Estimates 35,000,000 Votes

Coolidge received 7,338,392 more votes than Davis, but he received a plurality of but 2,507,914 over the combined vote of Davis and La Follette.

And they are quite wedded to the fact that the election could practically be turned by the additional 6,000,000 voters who will find their way to the polls in November.

The estimate of "at least 35,000,000 votes" for November was made by Simon Michelet, the Washington lawyer, who for several years had intelligently directed the national-get-out-and-vote movement.

Michelet agrees that the campaign provides many sensational, disturbing and doubtful phases that will contribute to the vote.

In Massachusetts, for example, the Democrats have established a separate bureau for registration and estimate they can register at least 100,000 there.

Sectional Issues Help

The agricultural west supplies the bitter farm issue, which will supplement prohibition in bringing large masses of new voters to the polls.

But it is in the south, where the wet, religious and color problems are the most acute that Michelet and the party chiefs feel that the great-outpouring will take place.

In the past the southern states abstained from the elections. Arkansas for example, cast 220,000 votes in the 1924 primaries but only 33,000 in the election.

The party leaders estimate that bigger election votes will be polled in those states next November than ever were cast in past primaries.

Lowellville Sends Big Delegation To Outing Here

Lowellville, O., is a deserted city today, as most of the townspeople are joining with the merchants in the annual Lowellville Merchants' Association picnic at Cascade Park.

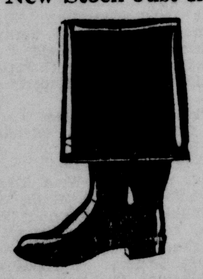

They journeyed here in private machines and P.-O. busses today. Special street cars also brought the throng to the park. John Frech is the general chairman.

At noon free coffee, cream and sugar were distributed to the picnickers, who had dinner in the grove, and during the afternoon a ball game and other athletics were enjoyed. Rainbow Terrace was also open this afternoon for dancing.

CONDITION OF JAMES WIGTON FAIRLY GOOD

The condition of James Wigton of Warren avenue, who was severely burned last Thursday evening when gasoline in a pump at a filling station on S. Jefferson street caught fire, is reported to be fairly good. Mr. Wigton is in the New Castle hospital.

Jerry Is Second In Marathon Race

New Castle Man Makes Fine Showing in Thirteen Mile Race In Pittsburgh

Reports reaching local divisional offices of the Pennsylvania railroad today tell of how Frank Jerry, Jr., of this city struggled and conquered second place in the "bunion marathon" staged by the Pittsburgh Butchers' association as a feature of their annual outing at Kennywood park Tuesday.

Jerry, who is employed at the local headquarters as a telegraph operator, was just one of the 40 entrants who fought tooth and nail up, over and down the hills of Pittsburgh for the coveted honor of winning the race.

According to reports the distance which had to be covered was 13 miles and a large portion of this uphill. The contest started at the Diamond Market house on Fifth avenue and finished at the park, where hundreds were on hand to witness the close of the race.

Jerry's time for the entire distance was one hour and ten minutes, whereas a trip on a street car over the same run requires one hour and 21 minutes.

For his placing second in the contest, Jerry was presented with a beautiful Elgin wrist watch.

Salvation Army Sunday School Enjoys Picnic

The Sunday school of the Salvation Army of this city enjoyed their annual outing and picnic Tuesday afternoon and evening at Hill's Beach.

About 60 children were present. Out door sports and contests and swimming were the pastimes of the afternoon. The children were taken to and from the beach in ten autos donated by A. C. McCoy of the McCoy Motor Co.

Adjutant E. J. Parkins in charge of the Salvation Army and all those who attended the picnic were most appreciative of the generosity of Mr. McCoy.

Dinner and supper were served.

Dr. Wallace Not To Conduct Clinic At Local Hospital

Dr. J. L. Wallace of Pittsburgh will be unable to conduct the clinic as planned at the Shenango Valley hospital on Tuesday, August 7.

Further announcement will be made regarding the return of Dr. Wallace to this city.

Four Pennsy Men On Retired List

For their 50 years of active service for the Pennsylvania Railroad company, Thomas F. Fitzmaurice, John Jourdan, Jr., and Samuel Mulholland of Erie and J. F. Sowash of Sewickley, former employes of the company on the Erie & Ashtabula division, who are well known in this city, have been presented with 50-year gold service buttons, offered by the railroad.

The presentation of buttons took place recently in the office of Raymond Swenk, superintendent of the E. & A. division, who offered the awards.

Before they were pensioned, some four or five years ago, Mr. Fitzmaurice was a passenger conductor, Mr. Jourdan and Mr. Milholland, enginemen, and Mr. Sowash a baggageman. Each of the men served the company in an active capacity for 50 years.

STEAMER-PLANE MAIL SERVICE STARTS AUGUST 8

WASHINGTON, Aug. 1.—The post-office department announced today that it would inaugurate a steamer-plane trans-oceanic mail service with the sailing of the French Line steamer Ile de France from Le Havre August 8 and from New York August 17.

An amphibian plane will leave the ship at such a distance from the American or French coasts as to save 24 hours in the time of arrival of the mail at its destination.

Mail matter except parcel post will be accepted on the Ile de France at the rate of $1 for each half ounce or fraction thereof and at a rate of 25 cents for each two ounces or fraction on commercial papers and merchandise samples.

Don't fool yourself:

Since halitosis never announces itself to the victim, you simply cannot know when you have it.

Make yourself welcome

Before meeting others be sure you don't have halitosis

It is impossible to tell when you have halitosis. It doesn't announce itself to you. But it does to others. And that offends.

Don't take the chance. Before any appointment where you wish to appear at your best, use Listerine, which checks halitosis instantly.

Use it systematically every morning and night, and in between times — especially before meeting others. It puts you on the polite—and popular—side.

Listerine is so powerful a deodorant that it removes the odors of onion and fish. Naturally it makes short work of milder, but more offensive, odors arising in the mouth.

You owe it to yourself—and your associates—to keep your breath beyond suspicion. Listerine is your best aid in this matter. Lambert Pharmacal Company, St. Louis, Mo., U.S.A.

All Is In Readiness For Scottish Rite Picnic At Park On Wednesday

Good weather is all that is necessary to make the Scottish Rite picnic at Cascade Park Wednesday, Aug. 8, a big success. From reports from the chairmen of the several committees, everything is ready and raring to go. From all indications there will not be a dull moment all day. Stan Treser can hardly wait. He has so many surprises up his sleeve for the day, one will think him a magician.

And he is not the only one. Every member of the stunts committee had his work laid out for him and if the visitors are not well pleased and go home happy, then there is no use in trying.

The stunts committee members will not tell a thing, so that makes it that much more mysterious and exciting.

The grounds will be patroled during the day, admittance to the playgrounds that day being by Masonic or Scottish Rite dues card. Ed. D. Pritchard will look after this feature and he will be assisted by the members of the Legion of Honor, connected with the New Castle Consistory. Ed. is too busy laying out his plans to make out a list of his committee, but they will all be working picnic day.

The members of the Legion of Honor will also have charge of the dancing, under the directions of Dr. Fulton Jackson and Paul Fisher, two past-masters in that line. They have secured two orchestras for the occasion and assure all comers there will be dancing aplenty.

The Yellow Dogs will be out in full force under the able management of H. B. Richards. They will have a special tent pitched on the shores of the Big Run, where water is plentiful, cool, refreshing and free.

The Committees Follow:

HELPED HER SO MUCH SHE FEELS LIKE NEW PERSON

Rheumatism, Indigestion And Headaches Gone Since She Used Ten Herbs.

"I am certainly thankful for what Ten Herbs did for me, as I had tried many different kinds of medicines without getting much relief from my suffering," was the statement of Mrs. Adam Wagner, 858 Suismon Street, North Side, Pittsburgh, Pa., to the

MRS. ADAM WAGNER

Ten Herbs Man, who is at Eckerd's of New Castle, Inc., 30 East Washington Street, New Castle, where he is daily demonstrating this great natural medicine to crowds of people.

"I used to suffer with indigestion," Mrs. Wagner continued. "Everything I ate seemed to sour and form gas, which was very distressing. I was troubled with headaches and hot spells for two years, and had rheumatism in my knees for six months.

"Ten Herbs gave me satisfactory relief from rheumatism, headaches and hot spells. I am no longer bothered with indigestion or gas on the stomach. Even the first bottle of Ten Herbs made me feel much better, and after using three bottles, I feel like a new person. I am more than glad to endorse your medicine to the public."

Many men and women in this city are learning the value of Ten Herbs as a tonic for weak, run-down systems, and sluggishness of the stomach, liver, kidneys and bowels. The effect of using Ten Herbs is far reaching. It will not permit waste matter and impurities to remain in the system, and usually promptly relieves the common ailments resulting from disordered stomach, liver and bowels. Ten Herbs benefits and invigorates those organs, restoring normal healthy action.

The demand for Ten Herbs in this city is increasing by leaps and bounds. It probably is the most widely discussed medicine that has ever been introduced here. There is no other medicine like it—and that accounts for the surprising relief it has given many in this section after they had given up hope of ever being well, having tried medicine after medicine without being relieved.

The Ten Herbs Man is at Eckerd's of New Castle, Inc., 30 East Washington Street, New Castle, where he is daily meeting the public and explaining the merits of this medicine. Free sample given.

Exclusive Central Press Dispatch to New Castle News.

CHICAGO, Aug. 1.—Fay Ehlert, wife of the Chilean consul, who won the Edith Rockefeller McCormick prize for the best one act play in a recent little theatre tournament, has a half dozen chic new hats at home, but she seldom appears in anything but an Alice blue woolly hat of last year's vintage. The reason is she is superstitious about this particular hat. When she wears it she has marvelous luck. Without it, she says, her luck wanes.

I met her recently at one of Alice Gerstenberg's "salons", which are the most brilliant in town. Foreign consuls, with a large percentage of handsome South Americans, and their wives, drank tea with Chicago's Gold Coasters and the dozens of actors and actresses of Chicago little theatres. They had just attended the performance of Mrs. Ehlert's prize play, "The Undercurrent," acted by Northwestern university students and school teachers, which is the first little theatre play of Chicago, with amateurs in the cast, to be booked for vaudeville.

The Chilean consul's wife is only one of a growing number of Chicago's social register to strike out in the theatrical world. Mrs. Samuel Insull, wife of the head of the Chicago Civic Opera company, was one of the first. Nearly all the others owe their impetus to Alice Gerstenberg, a Junior League girl who began the Playwright's theatre, where original plays have a chance to prove themselves, and who with Anne Washburne, started the Junior Leagues of the country to putting on children's plays for charity. The Junior Leagues, as you know, are clubs for debutantes and young society matrons.

Parents Visit Sons At Fort Washington, Md.

Lawrence County Boys Help Win Track Meet For Company I

FRED BLAHA
News Correspondent

FORT WASHINGTON, Md., Aug. 1.—Thursday was patriotic day at Fort Washington. The various patriotic societies being represented by one or more persons. There were also several gold star mothers present. A special program was arranged for the occassion. One gold star mother gave an impromtu speech to the boys of Pennsylvania. The applause rendered was perhaps greater than any other. In her remarks she made each and every one of us proud to be a native of Pennsylvania. Among the visitors at camp was Miss Calvin, a teacher at our own senior high school.

Saturday was set aside as parents day. They had been arriving for a week previous, but on Saturday the greatest number were here. In the morning the track meet was staged, Co. I won first place. The boys from Lawrence county came in with their share of the points. Just before noon a parade was held for the benefit of the visitors. When the command pass in review was given, and some eight hundred fellows moved into line, there was not a parent present who was sorry that his son had attended the CMTC this year. Needless to say, there were many favorable comments. Those present from New Castle were Mr. and Mrs. W. G. Fleming, Mr. Tieche and son, Jack, Mr. and Mrs. J. Blaha, Helen Blaha, Helen Weingartner, Mrs. W. F. Johnston and Mrs. D. Maddocks. Mr. Tieche had quite a time finding his son, Sam, but finally succeeded in locating him. Sam was doing a little "extra" detail work in the kitchen.

In the afternoon Co. I baseball team won a ball game from Co. M but due to the interference by the rain, the game will have to be played again. The winners of this game will be the champions of the camp. In the game Saturday Dick Means pitched a good game for Co. I, while Steed romped away with a home run. When the game was called the score read 8 to 1 in favor of Company I. The rest of the afternoon was spent in visiting the historic points of the fort.

A swimming meet was held Saturday evening, with many entrants from Co. I. Harry Mooney was entered in several events but probably stood out more predoncimalitly in the 60 yard back stroke than any other, winning by a good margin. Later in the evening the third and last CMTC dance was held. It was proclaimed the best one held during our stay.

Sunday evening Company I kept up the good work by winning the CMTC banner for the third consecutive week and the second consecutive year. Another year and it will be the permanent possession of that company. There were 63 present from our company.

COMPLETE WORK IN COURT ROOM

Work Of Remodeling Court Room No. 2 Has Been Finished

Remodeling of court room No. 2 occupied by Judge James A. Chambers when holding sessions of court have been completed.

Among the changes made are to change the judges bench from facing the west to facing the north. The jurors are placed at the back of the front part of the court room, near the judges bench and facing west. The location of the witness chair is also changed so as to nearer the judge and the jury. An entrance or hallway from the main corridor of the court house to the No. 2 court room so that it will no longer be necessary to go through No. 1 court room, has been made by cutting down the ladies waiting room. The wallpaper of the room has also been cleaned and the entire place is much improved.

The work of cleaning the wall paper in No. 1 court room has now been started and will be rushed to completion.

JOSEPH STELLA FACES CHARGE

Joseph Stella was arrested Tuesday afternoon by County Detective W. G. Fleming and taken before Alderman O. H. P. Green, where he was charged with violation of the Snyder act. He gave bail in the sum of $1,500 for his appearance at a hearing to be held Saturday morning.

Four Appeals Will Be Acted Upon By City Zoners

Board To Meet At City Hall On Tuesday Afternoon, August 7

There will be four cases up for hearing before the Board of Zoning Appeals when it meets Tuesday, August 7 at 3:30 o'clock in the city council chambers.

The first is that of L. Baron, 223 East Edison avenue, who appeals from the decision of the city engineer refusing a permit for the enclosing of the front porch of his home in glass, which is contrary to the zoning regulations of the district in which it is located. Some time ago Mr. Baron was given a permit to make some changes to the rear of his home, also some repairs to his front porch. On this permit, he had the front porch enclosed. The board of zoning appeals will determine whether this will be permitted to stand.

The second case is that of John Kowalchuck, 835 Vogan street, who was refused permission to enclose his front porch in glass, it being contrary to the zoning regulations of the district in which he resides.

The third case is that of Abraham Deep, 517 East Long avenue, who was refused permission to construct a four car garage on his property for the reason that he does not have the required lot space.

The fourth case is that of the Max Ludwig Company, which was refused permission by action of council to place billboards in front of the former Coliseum property. It will be remembered that the erection of the boards was started without a permit and council stopped the erection.

Old Regiments To Have Reunion

Fifteenth And Sixteenth Regiments To Meet At Conneaut August 9

Local members of the 15th and 16th regiments of the Pennsylvania Volunteer Infantry and their families are expected to attend the organization's annual reunion at Conneaut Lake park on Thursday, August 9.

A big fish fry, which will be entirely free to all comrades and their families will be one of the important features of the gathering. There will be plenty of amusements for the children, and for the older folks there will be swimming, boating and fishing.

This year both the 15th and 16th regiments are combining to make the event an outstanding one and it is hoped that New Castle will send a large representation. Those from this city are asked to get in touch with Rex Patch, of 507 Florence avenue, if they expect to attend.

Former Mayor Of St. Marys Dies

(International News Service)

RIDGWAY, Pa., Aug. 1.—Funeral arrangements were being made today for J. A. Hanhauser, who died at St. Marys following a brief illness. Services will be held Thursday at St. Marys Catholic church.

Hanhauser was well known in Elk county. For several terms he served as mayor of St. Marys . He was treasurer of Elk county, secretary of the St. Marys Water company and a member of the school board.

Fishermen Flock To New State Lake

Lake Wallenpaupack Is Opened To Fishermen After Being Closed Two Years

(International News Service)

HONESDALE, Pa., Aug. 1.—Pennsylvania's largest body of water, Lake Wallenpaupack, nestling in the hills four miles from Hawley, was opened to fishermen today for the first time and hundreds of anglers from all parts of the state tried their luck.

Two years ago Lake Wallenpaupack, which is owned by the Pennsylvania Power and Light company and used for operating its gigantic power plant here, was stocked by the state game commission with wall-eyed pike, sunfish, perch, bass and pickerel. It was then closed to the public so that the fish would multiply.

More than 100 boats were placed on the lake which is approximately 53 miles around by shore line, but these were inadequate to accommodate the army of fishermen on the scene. Immediately after midnight the fishermen moved into the lake and many large catches were reported early.

Hunting Licenses May Now Be Had

Now that the rush of the people to pay their county taxes is over, County Treasurer Adda M. Smiley is now ready with her assistants to look after the needs of the hunters of the county who want licenses for the coming season. Very few have been taken so far but it is expected that there will now be a considerable rush to take them out. They will cost $2 at the office of the treasurer, it was announced this morning.

Five Student Fliers Training

Progress Being Made By Flying Class At Ellwood Airport

ELLWOOD CITY, Aug. 1.—A meeting of the aerial committee of the Ellwood City airport took place Tuesday evening in the Chamber of Commerce building with all the members present.

It was reported that the Ellwood plane which is undergoing repairs in Pittsburgh will be ready in another week and will be brought back to Ellwood City for use in the flying school. The pupils now number five and are progressing nicely. They are learning the rudimentary rules of flying and plane construction and will soon be ready for a trial flight with a pilot at the controls and it won't be long now before some proud would-be flier will be handling the controls himself. The next class will be conducted Friday evening in the offices of the Pittsburgh company.

The company announces that Mr. Buschyaeger, the company mechanic, passed his tests with an average of 98 per cent. A government inspector was in town and gave the examination.

BROKER, HUNTED 2 YEARS, CAUGHT

SANDUSKY, O., Aug. 1.—Trailed for two years through Canada, the United States and Mexico, Rodger Watkins, 30, a broker of West Hartford, Conn., was arrested late today in Lorain and brought to the Sandusky city jail, charged with the embezzlement of $187,000.

Authorities said he admitted his identity.

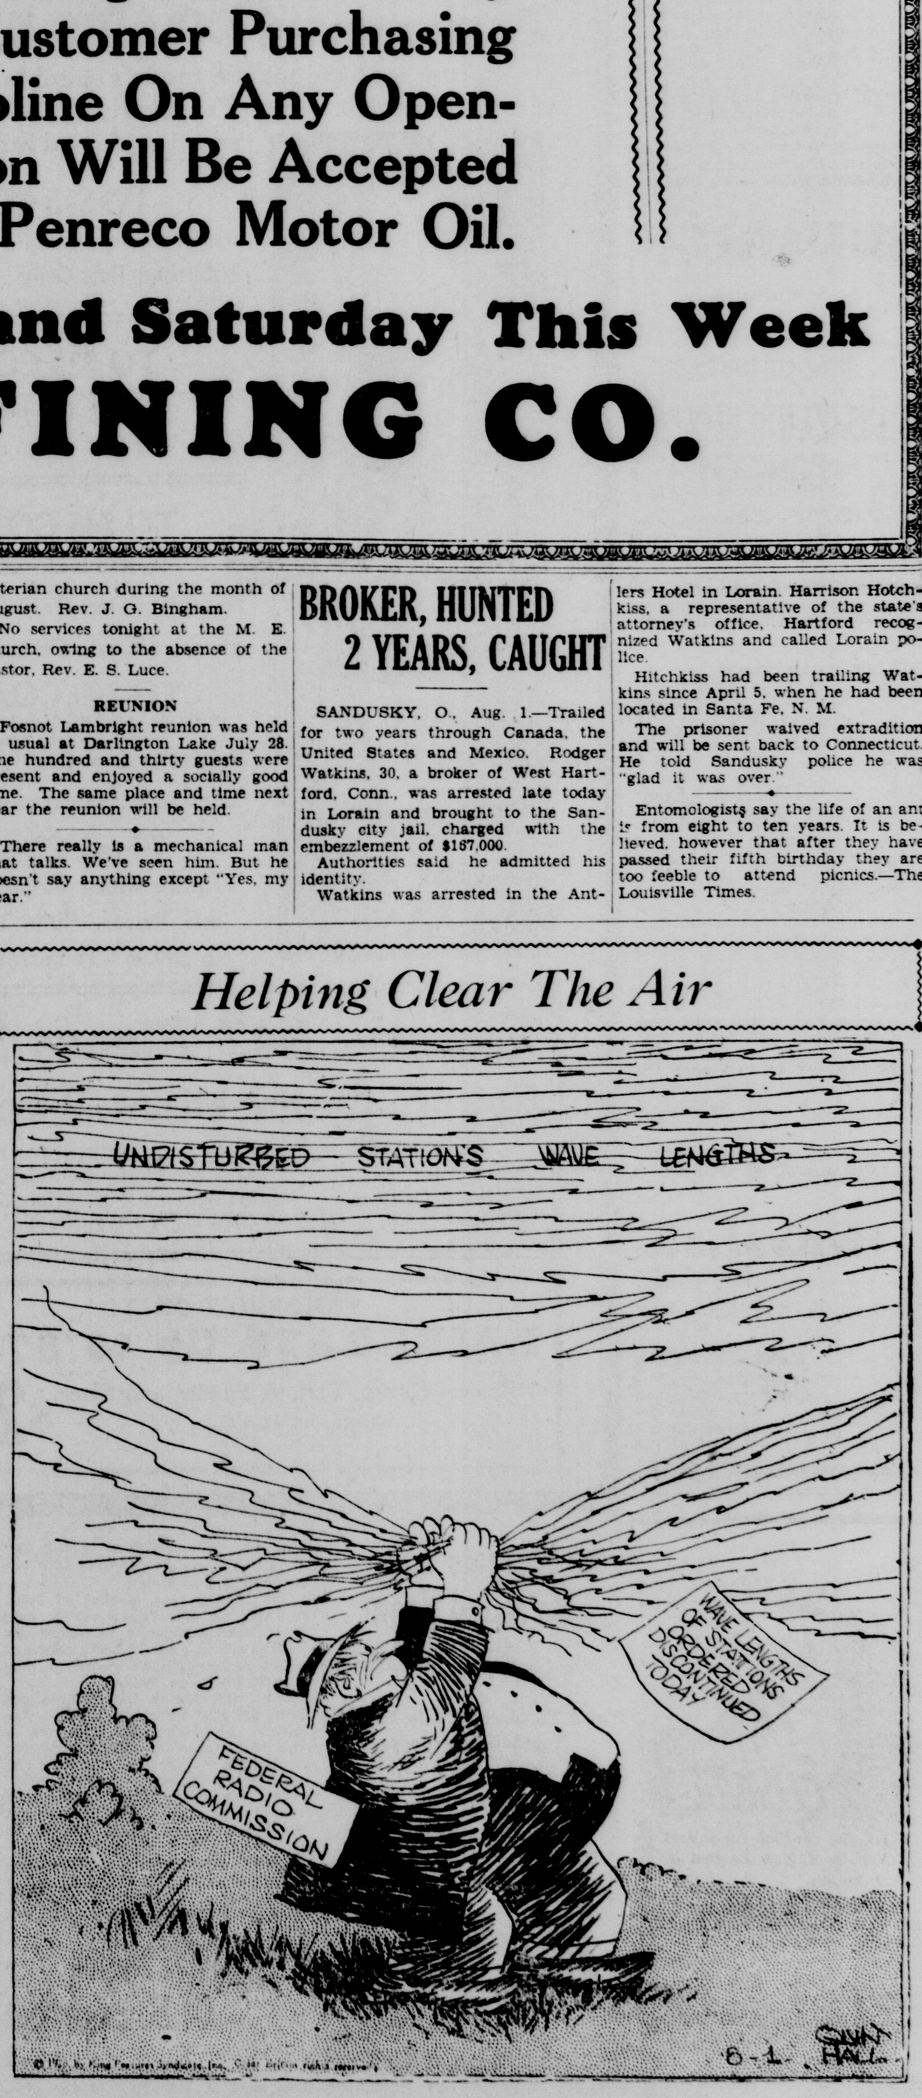

Watkins was arrested in the Antlers Hotel in Lorain. Harrison Hotchkiss, a representative of the state's attorney's office, Hartford recognized Watkins and called Lorain police.

Hitchkiss had been trailing Watkins since April 5, when he had been located in Santa Fe, N. M.

The prisoner waived extradition and will be sent back to Connecticut. He told Sandusky police he was "glad it was over."

WASHINGTON, Aug. 1.—Senator Key Pittman of Nevada who is to break the news to Alfred E. Smith that the latter is the presidential candidate will be well advised to take an intensive course in broadcasting first—over the mike.

The senator never will get any mash notes on account of his radio persinally until he does better than he did at the Houston convention.

His stunt there was to read the platform.

At the start he was too slow. The job threatened to take him all night. After about an hour Chairman Joe Robinson punched him up. Then he went too fast. It was impossible to understand a word he said.

Finally, kindly, but firmly Senator Robinson yanked his manuscript out of his hands and gave it to the convention secretary who finished it for him.

The Nevada solon can make a good speech in the senate, remote from the mike but he has not caught the trick of the wireless yet.

When a competent business executive happens to be put in charge of a political party's campaign headquarters, his staff's all-'round inefficiency must drive him just about wild.

He is used to a well-trained, disciplined organization of course.

That is exactly what a campaign outfit distinctly is not.

It is a hastily-thrown-together jumble, mostly of unpaid volunteers who cannot be bawled out like an ordinary office force.

Nobody's responsible to anybody else. Nobody knows who's who or what's what. Orders may be obeyed or they may be disregarded or they may be forgotten completely.

It is not an enterprise that deals in any tangible commodity. There is nothing definite to report. Everything is a matter of guesswork.

System?—no national committee ever heard of such a thing.

• • •

The Republican committee in Washington occupies four floors in a big office building with a personnel of about 1,000.

If you have business to transact there you are quite likely to have to make practically the entire rounds looking for the right functionary to transact it with.

You may not find him then. He may be out at lunch—or out of town—or maybe there is no such functionary.

• • •

The local Democratic offices are not so bad—but they are only a branch here in the capital.

The main Jeffersonian headquarters in New York probably is the same kind of a lunatic asylum as the Republican madhouse in Washington—worse for all I know.

There is nothing unusual about it. It is always the same way on both sides.

Politicians thrive on it.

But how real executives like Dr. Hubert Work and John J. Raskob—accustomed to well-oiled machinery—how they stand it without having apoplexy is a mystery to me.

If Count Hohenzollern was to undertake to spend a couple of weeks here in July, he'd probably forget all about wanting a place in the sun.—The Fort Wayne News-Sentinel.

COULD NOT DO HER WORK

Strengthened by Lydia E. Pinkham's Vegetable Compound

Berlin, N. H.—"I took Lydia E. Pinkham's Vegetable Compound when I was in a family way because I was run-down and falling away every day. My food wouldn't digest and I could not do my work. I had to have a hired girl all the time. I took several medicines before I tried yours but none would help me. A friend told me about the Vegetable Compound and told me to try it as it would help me a lot. Your medicines have done me a lot of good and I cannot praise them enough. I will answer any letters that ask me what Lydia E. Pinkham's medicines have done for me."—Mrs. Willie Amero, 627 Burgess St., Berlin, N. H.

PULASKI NEWS

Mrs. H. H. Knox was a New Castle visitor Monday.

Mr. and Mrs. Marshal Wiblin were New Castle callers Monday.

Mr. and Mrs. Paul McClennahan and daughters, Betty, Jean and Helen, spent Sunday the guest of the former's sister and husband, Mr. and Mrs. H. K. Bell, of New Castle.

Mr. and Mrs. John Funk of Youngstown were guests Sunday of Mr. and Mrs. D. E. Funk.

On Monday evening at eight o'clock at the Presbyterian parsonage, Dr. J. N. Strain united in marriage Miss Mabel Haas of Sharon and Gordon Crowe of Warren, O. Mr. and Mrs. Crowe will reside in Warren.

Mr. and Mrs. L. L. Rodgers received word Monday of the death of the former's nephew, Jack Rodgers, 10 years old, son of Mr. and Mrs. Leslie T. Rodgers of Cuyahoga Falls, O., who passed away at his home Sunday.

Squire and Mrs. Lloyd E. Rodgers and little daughter, Elsie Gene, and Mrs. L. L. Rodgers have been enjoying an automobile trip to Columbus, O., where they have been the guests of Mrs. Lloyd Rodgers' parents, Mr. and Mrs. Frederick Shepherd.

Mrs. J. G. Osborne and son Bobby and Miss Jean Gilliland have returned to their homes at South Bend, Ind., after spending several weeks the guest of Mr. and Mrs. H. K. Gilliland and other relatives here. They were accompanied home by Miss Eileen Gilliland.

Miss Jessie Stitt, who has been spending some time in Grove City and Sharon, is spending several days at Hotel Pulaski and calling on old friends. Miss Stitt has retired after having spent 40 years in teaching, having spent the greater part of the time as teacher and principal of the schools in Omaha, Neb.

Committees appointed for the annual Pulaski Day, or community picnic, which will be held at Yellow Creek Park, Struthers, Friday July 3, are: transportation, Charles Clark and Charles Wick; table, Mrs. Charles Clark, Mrs. John Neal, Mrs. J. F. Gearhart, Mrs. W. I. Kerr, Mrs. H. K. Gilliland, Mrs. Charles Simpson; sport, Frederick Taylor Jr., Donald Gibson, Laurance Mitcheltree, Clarence McClintock; ice cream, Charles Clark, H. K. Gilliland; coffee, Mrs. Fred Wallace, Mrs. Dora Onstott.

Miss Lois Kerr entertained at her home Saturday evening in a very pleasing manner in honor of Miss Ardelle Locke and Richard Oliver of Dayton, O., who have been spending the past week guests at the Kerr home. A delicious lunch was served. The table was attractively decorated with sweet peas, yellow and white being the colors used. The hostess was assisted by her mother, Mrs. W. I. Kerr. Those present were, besides the honor guests: the Misses Helen Gibson, Edna Urey, Dorothy Meek, Donald Gibson, Frederick Taylor Jr. and Arthur Meek. The evening was spent in games and music and a general good time.

Fail To Allow Olympic Protest On Girl's Race

Canada Protests Against Victory Of Miss Elizabeth Robinson Of Chicago

(International News Service)

AMSTERDAM, Aug. 1.—The Canadians today made an unsuccessful protest against award of the Olympic judges in giving victory to Elizabeth Robinson of Chicago, in the 100 meter dash. The Canadians claimed that Fanny Rosenfeld of Canada, the favorite in the contest, was actually first.

After a full investigation the International Amateur Athletic Federation decided that the award of the judges was final and that there could be no appeal. It was stated, furthermore, that the judges had fully complied with the rules of the I. A. A. F.

Miss Robinson's time for the 100-meter dash was 12:1-5 seconds, a new world's record.

Get Your Car Ready For Harold Haid Day

Tickets Now Available For Booster Day, August 10

In answer to a query as to transportation to Forbes Field for the "Had" Haid demonstration by the home folk of this city, no special arrangement has been made. John J. Maher, chairman of the movement, stated that it was deemed best to permit interested fans to make their own arrangements in that regard. New Castle will recognize the ability of their product in this profession on August 10, when the St. Louis Cardinals play the Pirates at Pittsburgh.

Haid is the only New Castle boy in the major leagues, the distinction of which may be easily recognized when such classification embraces only about 400 out of the millions engaged in this sport throughout the country. Haid, it will be remembered, grew up on the North Hill and resided for many years at 717 Emerson avenue, whence he took up baseball.

The chairman would like to be advised of available space in cars of those driving, whereby other fans might be accommodated. Alec Samuels, secretary of the committee, could be phoned or seen in this regard as well. Those interested may procure tickets at Sporting Goods Store, New Leslie Hotel or committee officers. Having to operate at a distance of 50 miles from the scene of the demonstration is not a simple task, and if tickets are secured promptly the committee will be enabled to accommodate all in one of the best sections of Forbes Field and will appreciate such action.

Hoover Campaign In Local District Starts In September

According to the statement this morning of William Eakin, chairman of the Republican county committee, the actual work of campaigning for Hoover in this district will not begin until September.

Work has been going on the past few weeks in shaping the organization into an efficient working body, and arranging and selecting speakers for meetings throughout the county.

Mr. Eakin had no comment on what he thought the campaign outcome would be, excepting that he believed there would be many switched votes in both parties and that there would be a sufficient amount of this to make a prophecy of the election outcome a question.

CENSORS FROWN ON WHITE SUITS

The young lady on the left, Miss Helen Reppe, meets with the disapproval of Seattle, Wash., bathing censors because her suit is white. The censors say white two-piece suits are "vulgar." Miss Genevieve Laherty, at right, is wearing a costume that bears the beach censors' approval, because it is of variegated colors. This is the first year that two-piece suits have been allowed on Seattle beaches.

NEW MOTOR HAS NO PISTONS

A semi-turbine, rotary engine which operates without any reciprocating parts and is valveless, sleeveless, camless, pistonless and without springs or vibrations, has been invented by Kenneth W. Barkman, of Los Angeles, Cal., inset. The lack of friction makes the engine extremely durable and it also has tremendous power, Barkman avers.

NIGHT LIFE FIGURES INDICTED

As the sequel of secret raids directed against 18 New York night clubs last June 29, by order of Assistant United States Attorney General Mabel Walker Willebrandt, 105 have been indicted by the federal grand jury, including Texas Guinan and Helen Morgan, night club hostesses, and Nils T. Granlund, New York radio announcer. The indictments charge alleged conspiracy to violate the prohibition law and maintenance of nuisances. Photo at left shows Miss Guinan as she appeared 10 years ago, and above as she looks today. Center is Granlund, and Miss Morgan is at the right.

SPUD KING SEES BUMPER YEAR

Missouri's "potato king," George Mereness, who grows his spuds near Missouri City, Mo., along the bank of the Missouri river, predicts a large crop this year. He hires 40 hands to pick potatoes which he grows according to specifications of the U. S. department of agriculture. Above, a group of pickers taking a "drag" from the water bottle. Left, Tweed Foley, who holds the record of 200 bushels of seed potatoes cut in a nine-hour day, and, right, Mereness.

ANOTHER WOMAN TO GO TO DEATH?

Two women in recent years have paid the death penalty to expiate their crimes—one in England and one in the United States—and a third will be added to their number unless the state of Georgia commutes the sentence of Mrs. Eula Thompson, who is to die in the electric chair at Atlanta county jail for the murder of Coleman Osborn, farmer, of Chatsworth, Ga. Mrs. Thompson is at the left. Right, Mrs. Ruth Snyder, who was electrocuted at Sing Sing prison, New York, for the murder of her husband, Albert. Below, Mrs. Edith Thompson, hanged in England for the stabbing of her husband, Percy Thompson, a war veteran.

The Story Of Our War With Spain
The Battle Of Manila Bay—Part II

THROUGH A HOT BUT INEFFECTUAL FIRE FROM THE SHORE, COMMODORE DEWEY LED HIS SQUADRON TOWARD THE SPANISH FLEET AND FORTS AT CAVITE AS COOLLY AS IF FOR TARGET PRACTICE. WHEN THE FLAGSHIP "OLYMPIA" CAME WITHIN EASY RANGE OF THE ENEMY, DEWEY TURNED TO HER CAPTAIN AND SAID, "YOU MAY FIRE WHEN READY, GRIDLEY."

AT THE SIGNAL TO COMMENCE FIRING, A ROAR WENT UP FROM THE AMERICAN TARS, "REMEMBER THE MAINE!" THEN OUR WARSHIPS BEGAN A TERRIFIC BOMBARDMENT, THEIR SHELLS RIDDLING THE SPANISH VESSELS AND BURSTING IN THE GUN EMPLACEMENTS ASHORE WITH DEADLY EFFECT

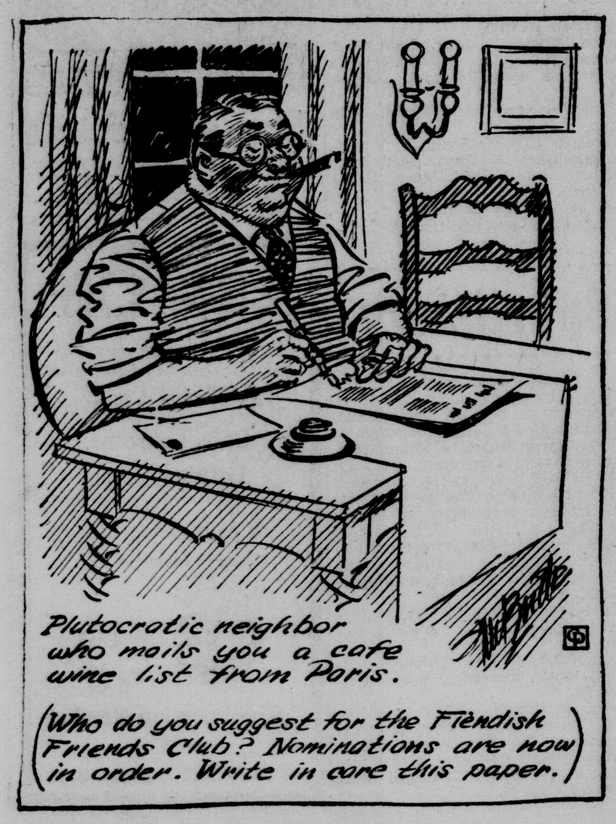

THE "OLYMPIA" SWUNG AROUND, PRESENTING HER PORT SIDE TO THE ENEMY, AND, FOLLOWED BY ALL THE SHIPS IN SINGLE FILE, STEAMED PAST CAVITE, EMPTYING ALL THE GUNS ON THAT SIDE. THEN, TURNING, THE SQUADRON REPASSED THE FORTS, THIS TIME USING ALL THE STARBOARD GUNS.

SEVERAL TIMES THIS MANEUVER WAS REPEATED. THEN ADMIRAL MONTEJO, THE SPANISH NAVAL LEADER, CAME OUT SLOWLY ABOARD HIS FLAGSHIP, THE "REINA CRISTINA", TO ENGAGE THE "OLYMPIA". AFTER A BRIEF DUEL, THE SPANISH SHIP RAN FOR THE SHORE, SINKING AND AFIRE.

Dempsey May Be Rematched With Sharkey, Report

Dempsey Still Undecided On His Return To Ring For Further Honors

PLANS TO COMPLETE VAUDEVILLE TOUR

(International News Service)

BOSTON, Aug. 1.—A heavyweight title battle between a couple of Jacks—Dempsey and Sharkey—loomed on the fistic horizon today in the wake of the Gene Tunney retirement announcement.

Dempsey was back in New York today after acting as announcer at the Mays-Schaaf bout last night.

The ex-champion left behind him a series of conflicting statements. Some of them were

"I do not know just what I shall do, but I may fight again and if I do I think it will be with Jack Sharkey.

"I have no intention of ever fighting again, but I may change my mind."

"I will re-enter the ring but not until my theatrical contract expires."

"As it looks now I am through with fighting my ambition is to be a perfect husband and be the father of a fine family."

However the press wires had hardly finished telling of Tunney's retirement when John Buckley, Sharkey's manager was called to New York by Tex Rickard for a conference.

One thing Dempsey emphasized—that he would not lay claim to the world's heavyweight title—he will win it in the ring, not in the newspapers or in a popularity contest, he said.

Wampum Defeats West Pittsburg

Bunching hits in the first inning, to tally three runs, gave the Wampum team a 3 to 1 victory over the West Pittsburg Garlands in an American section Twilight League game played at West Pittsburg field on Tuesday night.

Both teams had but five hits but the Wampum team made them count for runs. Braykovich and Boone pitched excellent ball for their respective teams. The Garlands had three errors that greatly marred their play. Fundoots, Grinnen and P. Robertson had two-base hits.

The summary:

Wampum	R.	H.	P.	A.	E.
R. Robertson, 2b	1	0	0	0	0
Kellner, 2b	0	1	0	1	0
Grinnen, rf	1	1	1	0	0

SORDS POINTS

It Was Just a Game for Pipgras

By JACK SORDS
Sports Cartoonist-Writer for Central Press and New Castle News

When the New York Yankees romped into Pittsburgh last fall for the opening game of the world's series with the Pittsburgh Pirates, George Pipgras, farmer boy, was rated as a relief hurler, to all intents and purposes. It is doubtful if Miller Huggins had the slightest idea that he would send the young right-hander in to start a game.

Then came the injury to Herb Pennock's knee (a blow from a line drive in practice). Even then Huggins surprised the experts by selecting Pipgras to pitch the second game after Hoyt and Wilcey Moore had taken care of the first one.

Pipgras' feat in holding the Pirates to seven hits and two runs was considered a remarkable performance. But his work this season has indicated that that was just an ordinary day's work for him.

Lee Meadows Makes His Second Start And Is Taken From Box

BOSTON, Aug. 1.—Rogers Hornsby and his Braves defeated the Pirates 11 to 5 in the third and last game of the series. Lee Meadows made his second start of the season and he was knocked off the mound before an inning had been played. Brames took his place. Tauscher went in the box in the fourth. Smith pitched for Boston.

National Amateur Baseball Tourney Plans Are Made

PITTSBURGH, Aug. 1.—Elimination plans were complete today for the selection of a Pennsylvania representative in the national junior amateur baseball tourney, conducted by the American Legion, under the auspices of the major leagues, for the purpose of securing a national champion.

Thursday and Friday of this week clubs representing Pittsburgh, Ambridge, Dunbar and Johnstown will fight for southwestern Pennsylvania supremacy. On the same days the championship of the northwestern part of the state will be settled between Erie, Grove City, Punxsutawney and Houtsdale. On Saturday these two sectional winners will meet in Pittsburgh, the winner meeting central and eastern Pennsylvania representatives for the right to go to Baltimore in another round of eliminations, with winners from Maryland, Delaware, West Virginia and District of Columbia. The winner of Baltimore games will then meet other regional champions and a national amateur junior champ will be selected.

ANDY HIGH

The much-discussed two-team idea in collegiate circles apparently has taken hold of Indiana university. More than that, Pat Page, head football coach, has announced that he will go the idea one better by having three separate teams in the field.

The two-team idea, ushered into the foreground by the University of Michigan, calls for a "road varsity" and a "home team", supposedly to be of equal strength.

Indiana, at one time boasting one of the most formidable teams of the Western conference, has not fared so well of late years, and it may be that the three-team idea will draw added attention, at least to the Hoosier team.

Tunney-Dempsey Fight At Some Future Date Appears Possibility

Gene Tunney Retires From Ring And Jack Dempsey Signs For Another Bout

Dempsey Will Return To Ring To Meet Winner Of Heavyweight Tourney

By DAVIS J. WALSH
Sports Editor International News Service

NEW YORK, Aug. 1.—Gene Tunney was a private citizen today, no longer the man who is, but now the man who was, a state of affairs brought about by the act of his own hand—his public disavowal yesterday of the heavyweight championship. An hour before he made the announcement, that other famous "widower" of the profession, Jack Dempsey, promptly retired from retirement, as he so often averred he wouldn't, and there is no connection to be seen between these circumstances, then somebody ought to be entitled to the packet of pencils, the tin cup and the dark glasses right away and a trifle sooner.

May Meet Third Time

The writer is not presuming to declare that one man's retirement and the other's return mean beyond doubt that Dempsey and Tunney ultimately will meet in the championship ring for the third time. But there is no evidence on hand to indicate that it won't happen. Dempsey shouted from the house tops that nothing would induce him to come back. He is back. It, therefore, might seem reasonable to suppose that Tunney's representations of yesterday may be almost equally impermanent in their effect.

The fact of the matter is that Dempsey never would have signed with Tex Rickard yesterday to meet the winner of the latter's heavyweight tournament next summer if he believed this action would lead to another meeting with Tunney. He wants no more of that young man. But suppose Dempsey regains the title, as many will expect him to do. And suppose Tunney decides that he wants to come back, as he very well might after he saw that the title had fallen into Dempsey's hands again. Our John could hardly run out on that one, even if he wanted to from a personal standpoint. It would make him look too bad, for one thing, and it would lose him too much money for another.

Would Draw Crowd

Imagine the awful laceration the turnstiles would take if and when they hold a heavyweight championship fight between the man who regained the title, a feat never before achieved, and the man who never lost it.

The majority of experts wouldn't give Dempsey a white man's chance of winning but that would make no difference to John Bannanas and his brother-in-law. They want to see in there with Tunney a man who has a chance to level him with one punch, and, besides, there are a lot of souls on this eatrh who never got over the idea that Dempsey really is the champion by virtue of the famous long count in the seventh round at Chicago.

Opinion Divided

Opinion today was pretty equally divided as to whether Tunney's retirement is permanent or really temporary. Those close to the man, however, seem cemented in their notion that, having relinquished the possession he prized most, Tunney is through for all time. This may be, for he is a singular individual if ever there was one and he has the strength of character to stick with a thing even when he believes it to be against his impulses and desires. If I am drawing a picture of a hard-headed man sitting down to give himself a terrible beating on any issue that might arise, I am desolated but not discouraged. In fact, I regard that picture as an excellent likeness.

At Face Value

The ensuing twelve months will tell the story of Tunney's retirement. As read, it must be accepted at fact value but not without reservations. One of these would take in the possibility of a standout heavyweight being uncovered in the next year—Dempsey, for example, or the man who arises to a point of great disorder by knocking Dempsey out.

For Tunney, even in retirement, is the type of man who will want to be recognized as the greatest there is. If another arises whose fame and ability disputes the point, then every tendence of the retired champion will be tugging at him to go out and reaffairm the supremacy he now enjoys.

But the development in question must arise within the period of time in which Tunney believes his speed will stay with him even though he be inactive. For, as I have said before, Tunney may come back to score an expected victory; never to accept an expected defeat. Too much does he enjoy the distinction of being the only heavyweight champion, who retired undefeated, to spoil the illusion.

Charley Paddock Fails To Qualify

Paddock Fourth In 200-Meter Race In Olympic Games Staged Today

JACKSON SCHOLZ IS QUALIFIED

By HARRY FLORY
International News Service Staff Correspondent

AMSTERDAM, Aug. 1.—America's star sprinter, Charles Paddock, failed to qualify today for the final in the 200-metre dash of the Olympic games. He finished fourth in the semi-final.

Those who qualified for the 200-metre final were Williams, of Canada; Rangeley, of Great Britain, and Schuller, of Germany. Williams' time was 22 seconds.

In the second semi-final Korning, of Germany, finished first; Jackson V. Scholz, of the New York A. C., second; Fitzpatrick, of Canada, third, and Henry Cummings, Jr., of the Newark, N. J., A. C., fourth. The German's time was 21 4-5 seconds.

Those who qualified for the final in the second preliminary were Korning, Scholz and Fitzpatrick.

Coast-To-Coast Baseball Player Is Bevo Lebourveau

By NORMAN E. BROWN
Sports Writer for Central Press and New Castle News

Away from the heavy stuff, and just a bit of chit-chat from here and there.

For instance. There's Bevo Lebourveau, slugging outfielder, tried out by the Giants a year ago and by the Athletics this year. Bevo's home is in Placerville, Cal. Bevo spent last winter there, then reported to the Philadelphia club's camp at Ft. Myers, Fla., last spring. Nice little ride.

Connie Mack sent him back to the coast—by another route. And now Milwaukee has obtained his services for the rest of the season—Bevo getting another jaunt across country through the northern section. If the past year hasn't done much for Bevo in a baseball way, it has broadened his vision, so to speak.

* * *

And speaking of Philadelphia. Burt Shotten ought to draw the annual award for perseverance. At this writing he is not only continuing as pilot of the Phillies, but despite the fact that they are below the .300 per cent mark has hopes of them playing some good ball before the season ends.

John McGraw, manager of the New York Giants since rubber collars came into vogue, was one of the important personages at the recent meeting of Gene Tunney and Tom Heeney. And Jawn found out that the boxing game and the Giants have something in common, judging by the number of vacant seats at the fight—and the Polo grounds. That something is the ol' John wallop.

Did George Moriarty and his advisers around the Detroit ball club pull a boner in disposing of Carl Hubbell, young Beaumont pitcher? That's what Texas League fans, who saw him work this season, will tell you.

Hubbell went great guns in the Texas circuit, and John McGraw backed his scouts' judgment in laying the lettuce down for Hubbell.

Shano Collins, veteran American League outfielder, who has been managing the Pittsfield team in the Eastern League, tossed off his managerial dignity the other day and hopped into the line-up at first base when his regular first sacker, Gene Sheridan, was hurt. Collins played first at times while with the White Sox, Red Sox, et al. Another one of baseball's handy men.

* * *

Roger Peckinpaugh, recently reappointed manager of the Cleveland Indians for a second year, is quoted as diagnosing the illness of the present team by the succinct remark: "It's just a rotten ball club."

If this be true, Diogenes need look no further in baseball for the type of man he has been seeking.

And if Peck didn't really say it, he probably has thought it for some time.

Personalities IN SPORT

PAT PAGE

Andrew High, utility infielder with the St. Louis Cardinals, was born at Ava, Ill., Nov. 21, 1897.

He started his professional baseball career as an outfielder, with the Memphis club of the Southern association, in 1919, and it wasn't until his second season that he moved to the infield—third base.

Little did he know, when he played two full seasons at that post, that never again—up to the present season, at least—would he have a job all his own.

The season of 1922 found him a member of the Brooklyn Dodgers. Over a period of three and a half seasons he played short, third and second when called upon, and when the Boston Braves claimed him at the waiver price in July, 1925, he continued in his utility role.

When the Braves obtained Lester Bell, regular third sacker of the Cardinals, this year, High moved west to the St. Louis club—to plunge into the thick of the fray when injuries to Frankie Frisch, star second baseman, forced him out. And Andy has been playing a brilliant game ever since.

He bats left and throws right, weighs 155 pounds and stands 5 feet 6 inches tall without the aid of spikes.

Clifton Flats Takes Victory

The Clifton Flats team downed the Mahonings, 5 to 2, in an American section Twilight League game played at the Seventh ward field Tuesday night. The Flats team, by virtue of their win, retain the league leadership.

The game was a pitching battle between Hiler and Domenick, with the former the more effective of the two. The Flats team pounded out their victory in the first and fourth innings.

Rotunno, Adams and Logan had extra base hits.

Cardinals Hold Five-Game Lead

St. Louis Team Looks Like Pennant Winner In National Circuit

YANKEES END LOSING STREAK

By LES CONKLIN
International News Service Staff Correspondent

NEW YORK, Aug. 1.—A month ago the St. Louis Cardinals faced a stiff fight in staving off the rush of four rival clubs, while the New York Yankees enjoyed an apparently insurmountable lead in the junior circuit. Today the Cards are five games ahead of the second place Reds, only half a game less than the margin which the Yanks hold over the Athletics. So if there is to be a runaway pennant race this year, it probably will be in the National League and not in the American.

The Yankees stopped Cleveland yesterday, 12 to 9, but there was little balm in the victory for Manager Huggins. Hoyt was knocked out of the box and had to be rescued by Pennock, the only pitcher on the team who can consistently go nine innings at present.

Athletics Win Again

To add to the woes of Huggins, the Athletics chalked up their eighth straight win by outslugging the Browns, 8 to 4. Six home runs were made, including two by young Haas. The Browns have lost their last nine games with the Mackmen.

The Cardinals capped a refreshing visit to Philadelphia, oasis of the National League, by socking three Quaker twirlers for 20 hits and winning, 18 to 5. Douthit collected five hits.

Dazzy Vance beat Cincinnati, 3 to 2, enabling the Dodgers to square the series and regain fifth place from the Pirates, who took a 11 to 5 shellacking at the hands of the Braves.

A five-run rally in the ninth, during which six Giants hit safely after two were out, threw 30,000 New York fans into hysterics as the McGravian maulers nosed out the Cubs, 8 to 7. But Charley Root stopped the Giants in the nightcap, 10 to 4.

Charley Ruffing, Red Sox hurler, tried to beat Detroit singlehanded by clouting a homer and a double, but his mates collected only two other hits off Vic Sorrell and lost, 7 to 2.

Washington's four-run rally in the eighth fell short and the Nats lost their third straight game to the White Sox, 7 to 5.

U. S. Steel Report Shows Increased Quarter Earnings

NEW YORK, Aug. 1.—Steadily improving conditions in the steel industry were reflected in the mid year report of the United States Steel corporation made public today showing total earnings of $46,932,986 for the second quarter as compared with $40,934,032 for the first three months.

Net income was reported at $30,428,900, equivalent to $2.75 per share on comman stock against $25,907,139 or $2.11 per share in the first quarter. As compared with the second quarter of last year. Total earnings showed an increase of $892,526 but earnings per share were about three cents less. Earnings for the first half of 1928 were equivalent to $4.86 per share as against $5.60 per share on common stock during the first six months of 1927. Total earnings for the first half were $87,867,018 against $91,625,185 for the first half of last year while the first half net income was $56,336,040 against $61,606,250 during the first six months of 1927.

The regular quarterly dividends of $1.75 per share were declared on common and preferred stocks.

Young People To Have Convention

Eighth Annual Conference Will Take Place At Rose Point Aug. 24—Sept. 3.

The eighth annual Young People's conference of the Reformed Presbyterian church of western Pennsylvania will be held at Rose Point beginning Friday, August 24, and continuing until September 3.

A splendid staff of instructors has been secured for the ten days the conference will be in session. Dr. W. J. Coleman, an instructor in Geneva college during the last year and chairman of the witness committee of the Reformed Presbyterian church, will be in charge of the morning devotionals.

Mrs. A. A. Wilie, wife of the pastor of the East End Reformed Presbyterian church of Pittsburgh, will be the leader of the junior work. Her assistant will be Mrs. Roy Fullerton of New Alexandria.

Seven Erie Deaths Result In Ban On Sale Of Fireworks

ERIE, Pa., Aug. 1.—Prospects are that henceforth Erie will have "safe and sane" Fourths of July. The death of seven children from tetanus the result of Fourth of July burns led the Erie safety council to ask council for an ordinance banning the use of fireworks. Council today adopted a resolution directing City Solicitor Jacob Held to prepare the ordinance.

Anything Can Happen In Golf By Feg Murray

Two players at Gullane, England, in November, 1908, admitted that "anything can happen in golf" when, after each had driven more than 200 yards to the eleventh green, they came up to the balls and found them touching!

Another Englishman, G. B. Ellis, had a queer experience at Mitcham, where a telegraph pole indicates the line between tee and hole. On two successive rounds, Ellis's drive struck the indicator full and square, the ball rebounding back towards the tee.

A fourth Britisher, Lieut. Moxon, of the British Army Golfing Society, while playing in a match on St. Patrick's Day, 1923, was standing at the fifth tee of the Sandy Lodge course when he was struck on the head by another player's ball, knocked down, and badly stunned. That in itself would not have been so unusual, but a peculiar coincidence was attached to the accident, for, while playing on the same course for the Royal Artillery the previous year, Lieut. Moxon was hit on the head by a ball driven by Capt. King-Scott, while standing within ten yards of the spot where he was hit in 1923.

It remained for an American, and an unidentified Philadelphian at that, to make one of the freakiest shots on record, and prove without doubt that "anything can happen" in this curious game of cow-pasture pool. At the Philadelphia Country Club at Fairmount Park on August 21, 1926, an anonymous player made a fire alarm in one when he hooked his drive out of bounds, broke the glass of a box, and hit the lever that rang in the alarm. To the firemen who came with engines and hook and ladder wagons in a few minutes, the unknown hero said mournfully, "It was the longest shot of my career, too! If it had only gone straight!"

LITTLE IMPROVEMENT IN PAIR INJURED ON BUTLER ROAD

BUTLER, Aug. 1.—Little change was noticed in the condition of Mr. and Mrs. Lewis Cardillo of 6634 Rowan avenue, Pittsburgh, who were seriously injured in a crash of two cars on the New Castle-Butler highway about 10 o'clock Sunday morning.

Both are in a serious condition at the Butler County Memorial hospital, suffering from internal injuries, abrasions and lacerations. Mrs. Cardillo is the more seriously injured of the two.

NEW masterpiece Bodies by Fisher

In one tremendous stride, Buick has overleaped old modes of car design and attained an order of beauty without parallel in the automotive world. To know the new style—to appreciate its superiority—simply see the Silver Anniversary Buick with new Masterpiece Bodies by Fisher.

The world's foremost builder of automobile bodies has cooperated with the world's foremost builder of fine cars to produce the most beautiful creations ever shown. And with what results!

Dashing new lines, different from any heretofore known—longer, larger, more luxurious bodies, matchless in their grace and symmetry—gorgeous new color harmonies—the richest of upholsteries and appointments—full width rear seats providing plenty of room for three adult passengers—an ensemble of beauty and luxury that has never been equalled!

New and deeper radiator lines—new chrome-plated headlamps and cowl-lamps—new wheel and fender design—all combine to lend incomparable poise, fleetness and distinction.

The new Buick Bodies by Fisher mark the supreme achievement of the body-builder's art. To see the Silver Anniversary Buick is to see the most beautiful and fashionable car of the year, as well as the most capable and comfortable.

Mailmen Defeat Bankers 10 To 6

The Post-Office baseball team gained another imposing victory on Tuesday night at the Croton field when they downed the Bankers 10 to 6 in a well played engagement.

The Mailmen had 11 hits for ten runs off McGill and Fenati and the Bankers had five hits off C. Wilson. Johns featured the game with a home run drive. Steinbrink and Donegan had extra-base hits.

The Mailmen tallied six runs in the first chapter to give them a big lead.

Rides His Bike Into Automobile

While driving on Moravia street, near the viaduct, Tuesday evening, P. T. Grgbowski of 1601 Moravia street reports that a boy by the name of "Peach", aged 12 years, rode his bicycle into the side of the car. He was taken to a South Side doctor, where it was found that he was cut over the eye, although not severely.

The wheels of the bicycle were damaged.

Plan Rally Day At Bethany Church

At the meeting of the pastor's council of the Bethany Lutheran church Monday evening plans were made to observe Rally Day in the Sunday school on Sunday, Sept. 16. It was also decided to celebrate Harvest Home Day on September 30.

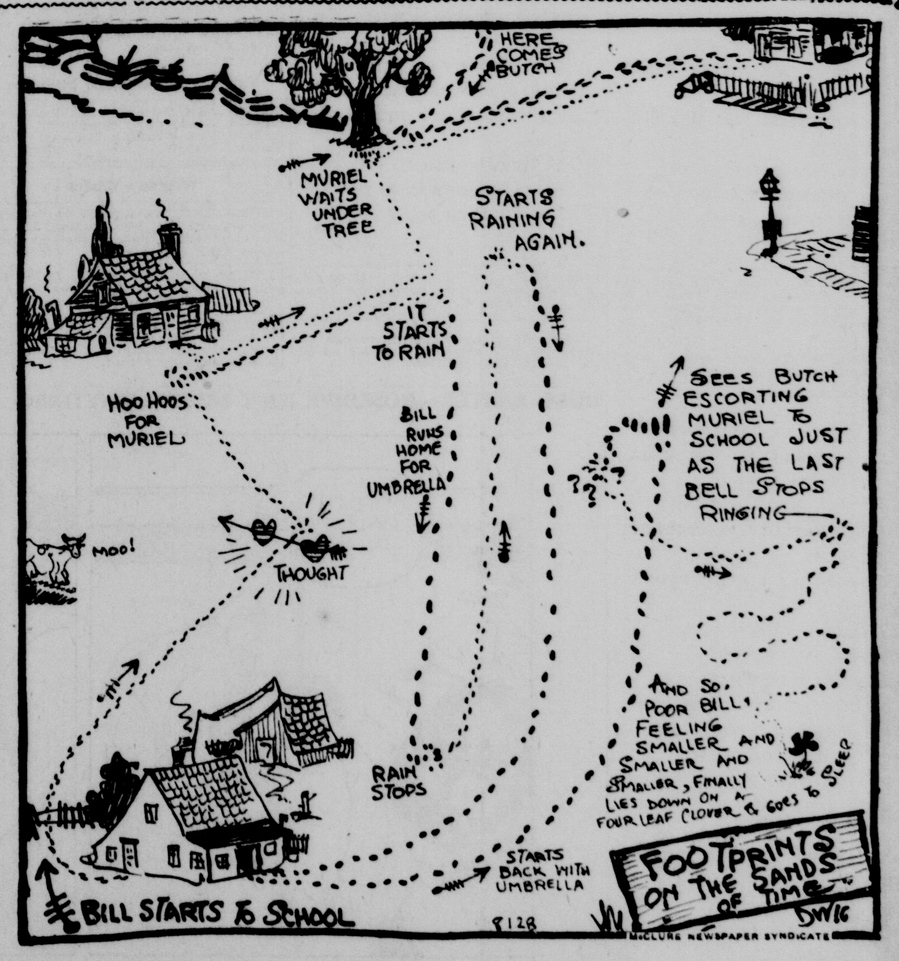

Suggestions were also made for the celebration of the 25th anniversary of the organizations of the church, which will be held in 1929. A general committee will be appointed later to arrange an appropriate and fitting program for the occasion.

PARTICULAR

After Mr. Winston Churchill had made his clever retreat on the kerosene tax he met a journalist in the lobby. He stopped him, and said: "Oh, Mr. Blank, what are they saying in the Press Gallery about my speech?" The journalist suggested that perhaps Mr. Churchill might not like a truthful reply, but the latter insisted. "Well," said the journalist, "they are saying that you stood on your head because you hadn't a leg to stand on."—Nation and Athenaeum (London).

Notice Of Assessment.

For Leasure Avenue Sewer.

Notice is hereby given, that the undersigned, who is authorized and directed thereto by an ordinance of the City of New Castle, Pa., will on Wednesday, the 8th day of August, A. D. 1928 at 7:30 o'clock P. M., Daylight Savings Time, at the City Engineer's Office, in the City Building, corner East and Washington Streets, New Castle, Pa., make the assessment for the construction of a sanitary sewer in Leasure Avenue in the First Ward of said City, from Wilmington Avenue to 600 feet west, at which time and place all interested parties are requested to attend.

Notice is hereby also given that on the same day at 8:00 o'clock P. M., Daylight Savings Time, at the place aforesaid, I will exhibit the schedule of assessments which I shall have then made as aforesaid, at which time any errors or corrections may be made.

F. F. MILLER,
City Engineer of City of New Castle, and Assessor to make said Assessment.

Legal—News—Aug. 1-2-3, 1928.

AN ORDINANCE

Providing for the grading and paving of Second Street, between Clayton Street and Madison Avenue, for the payment of the costs and expenses thereof and for the assessment of the same upon the abutting properties.

SECTION 1. Be it ordained and enacted by the Council of the City of New Castle, Pa., that the cartway of Second Street, between Clayton Street and Madison Avenue, be reduced to grade in full width throughout and that the same be paved as follows:

(a) With vitrified paving block upon concrete foundation, under specifications to be prepared by the City Engineer and approved by Council, or

(b) with reinforced concrete, under specifications to be prepared by the City Engineer and approved by Council, or

(c) with some form of asphaltic or concrete pavement, or both, to be done according to a standard or patent process prepared under and according to plans and specifications to be prepared by the City Engineer and approved by Council.

SECTION 2. The advertisement for bids for the said work shall be for the materials as specified in Section 1 hereof, and, upon the receiving of the bids, the City Council shall determine the kind of material with which the said street shall be paved and thereupon award the contract to the lowest responsible bidder for the kind of material with which the Council determines the said street shall be paved.

SECTION 3. The costs and expenses of the said work shall be assessed against the abutting properties according to the foot-front rule, and the said assessments are hereby appropriated to the payment of the said work, which is to be done and paid for subject to the General Improvement Ordinance of the said City, and its supplements and amendments and other ordinances relating to paving. The City's part or portion of the said work shall be paid for out of a fund to be provided for by Council.

SECTION 4. All ordinances or parts of ordinances inconsistent with the provisions of this ordinance are hereby repealed.

I, Cordelia Zeigler Jones, City Clerk, do hereby certify that the above and foregoing ordinance has been regularly introduced and is now pending in the council of the city of New Castle, Pa. In witness whereof, I hereunto set my hand and affix the seal of the city, this 1st day of August, 1928.

CORDELIA ZEIGLER JONES,
City Clerk.

N. Y. STOCKS

(International News Service)

NEW YORK, Aug. 1.—In anticipation of an easier trend in the call money market to be developed before the week-end, bulls in the stock market resumed their aggressive tactics in the early trading today, with the stocks of the big mercantile establishments and a few of the well-known oil companies pushed spectacularly to the front.

Call money opened at 7½ per cent.

Montgomery Ward sold up about 4 points to 188½ in the first period, in the lead of the mercantile shares. Kroger Grocery advanced 3 points to a new high around 111, and slightly higher prices were recorded for Woolworth and Sears Roebuck. American Can sold above 95 in continuation of its spectacular upward movement. Atlantic Refining, Standard of New York and Marland led the advance in the oils.

General Motors was freely sold in the second period and the stock declined to around 190. U. S. Steel, Consolidated Gas and other speculative favorites sold off on profit taking and reached the low levels of the week.

Vienna Star Hurt On Way To Theater For Opening Night

(International News Service)

VIENNA, Aug. 1.—Most theatres have closed down for the annual vacation. The only novelty of any importance promised for the summer is "The Lady in White," a new Austrian comedy, at the Rheinhardt Theatre

But the comedy turned into a real tragedy when the new primadonna of Reinhardt, Frau Charlotte Ander was run over by an automobile on her way to the theatre shortly before the premiere.

The young, beautiful and talented actress, who was longing for years to play a leading part on one of the most famous stages of the German theatre, was crushed by fate in the very moment she was to realize her ambition.

She suffered very serious injuries. Her skull was broken, she will probably never be able to return to the stage. "The Lady in White" could not make her appearance at the Reinhardt.

It cost $50,000 to bury one of New York's boss gangsters. At that of course it was probably worth the money to the community.—The Nashville Banner.

SECRET OF STATION P. D. Q. IS OUT

"P. D. Q.," the radio station which caused all the good folk of Crooksville, O., much concern with its broadcasting of town gossip, has been discovered. It really wasn't a broadcasting station at all, just a simple device by which a radio dealer, who also was a practical joker, R. W. Hull, cut in on the wires of friends who he knew were listening in. He also sold the sets to others. Above, Marshal Charles Baker, who uncovered the hoax, is posing with the device.

Give Reasons For Earlier Season To Shoot Cotton-Tails

HARRISBURG, Aug. 1.—In order that the reasons for the early season on cottontail rabbits for 1928 may be more generally understood by sportsmen, particularly those residing in the southern counties of the state, the board of game commissioners announced today that an earlier season was provided to give sportsmen in the northern counties a little additional hunting, in view of the fact that weather conditions during November are not suitable for good rabbit hunting and since woodcock have for the most part migrated to more southerly regions by the first of the month.

Consequently, to be fair to the southern half of the state, it was felt advisable to extend the season from December 1 to 15, with a six-day-a-week hunting period, thus giving the southern counties an opportunity to hunt rabbits while weather conditions in the northern counties are unfavorable. When the cold and snow set in rabbits hole-up during the day, and hunting them at such times is unsatisfactory.

Since the open season for small game begins on October 15, with a three-day-a-week hunting period, this means that there will be only six legal hunting days during October as against a full 15 days during December. Granting that the first three-day week in October may be comparatively warm, at least in southern counties, it was pointed out that the latter part of the month is often virtually as cold as the first half of November.

The early season will permit sportsmen in northern counties to get a good bag, while hunters in the southern counties will have no trouble in getting their sport a little later in the fall. The commission feels that once these reasons are clearly understood the sportsmen protesting the early season in southern counties will be willing to cooperate to the fullest extent.

CIVIC IMPROVEMENTS

"I should think," said the visitor, "that you people would get together and try to have the railroad put up a better and more modern passenger station."

"Huh!" replied the native, "our Chamber of Commerce, civic associations and women's clubs are too busy trying to get finer filling stations and hot dog stations to bother about a railroad station."—Cincinnati Enquirer.

McBRIDE SEES ELECTION OF "VERY DRY" CONGRESS

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, Aug. 1.—The Anti-Saloon League of America, while supporting Herbert Hoover for the presidency, will wage its campaign entirely aloof from the Republican party, General Superintendent F. Scott McBride said on his return here today from a survey of five states.

The dry league is raising its own campaign fund—with a maximum of $500,000 authorized—and will support proved drys for congress regardless of party affiliations.

The campaign to defeat Governor Alfred E. Smith is already under way, but will not reach full tide until early in September.

Coupled with this explanation of the league's plan of operations in the political war zone, Dr. McBride declared that if 90 per cent of the church vote is cast, Hoover will be elected.

"On the other hand," he said, "it is fully realized that if the drys in the churches are inactive and indifferent, the aggressive wet interests will be able to place Smith in the White House."

McBride declared that during his trip he found drys aroused in Ohio, Michigan, Pennsylvania, New York and West Virginia.

He offered a prediction that a "very dry" congress will emerge from the November elections.

The prediction was made without regard to whether it would encourage Democratic drys to vote for Smith in the belief that a dry congress would "handcuff" him or whether it might convince Republican wets that it would be a futile thing to desert Hoover in the vain hope of bringing back beer.

At the present time, McBride said, the senate shows 74 per cent dry among the Republicans and 71 per cent dry among the Democrats, while the house as a whole is 75 per cent dry.

"The situation on behalf of a dry congress never looked so good in any former campaign as at the present time," said McBride. "In none of the primaries already held has there been any unfavorable reaction but in a number of places there have been gains."

McBride backed up the charges made by William Allen White against Governor Smith, asserting that his own organization has Smith's record to substantiate him.

"The record of Gov. Smith satisfies every one who believes in prohibition that Smith is not a fit man to serve in the White House," said McBride.

Dog Recovers Stolen Pocketbook

A German Police dog has been found that has more actual uses than to bark and frighten gentle old ladies. The dog of I. E. Swisher of Sunnyside, on the Mt. Jackson road, recovered the pocketbook that was stolen from the Swisher home Sunday evening.

He was romping in the grass and came back with the purse gripped in his mouth and brought it to the house.

As one would naturally suppose, the money had been taken out, but the purse and usual contents of driver's licence, etcetera, were all in good condition.

The amethysts which were in the pocket of the purse had not been discovered by the thieves.

ROAD VISION.

Early motorists can remember the days when black-topped New York state roads were a joy to middle westerners used to riding on dirt and in ruts. New York was one of the pioneer states with its smooth macadam highways. Today those roads are too narrow and their foundations is insufficient for the truck traffic. New York is pioneering again in wide concrete and brick roads with several traffic lanes. Roads of the future in this country will be much wider and trucks will have roads of their own.

STOPPING THE SHOW.

Not long ago an actor read a chapter from the Bible in a famous New York night club. Half of the people in the room were drunk or on the way. The actor stilled the tumult with his voice and the verses. There was strange attention. When he finished there was silence—impressive silence—for some seconds. And then everybody went on with the show .That's a scene that's lived a hundred times in life. Something 'gets to us." We are brought to attention. We are impressed. As a rule wo do nothing about it. We do not set out to improve our habits. We go on with the show.

THE RAINY DAY.

Fifteen years ago a Philadelphia man inherited a quarter of a million dollars. At the same time he was told by his doctor that he had not more than a year to live. He weighed 545 pounds. He set out to spend his $250,000 before death took away all his wants. He lived 15 years dying just the other day. As was to be expected he died near poverty after having been a rubber in a Turkish bath and a taxi starter. When we are laying down a policy for the future we do well to assume that the future is going to be a long one. The rainy day may come tomorrow or it may come 15 years hence. And it may rain for years.

Auto Driver Is Held For Squire

Hugh Spence is held for alderman's court following police court this morning when he appeared on a charge of driving while in an intoxicated condition.

His arrest followed a chase when he ran into a car belonging to M. L. Forsoni which was parked at the intersection of South Mill and Grove streets. After he hit the car he did not stop but increased his speed according to the police. At the corner of Croton avenue and East Washington street he was arrested by Officer Ralph Crisswell.

Opposes Golf Course Use Of Former Poor Farm

A much better use for the former city poor farm would have been to use it as a detention home for wayward girls, in place of the proposed municipal golf course, declares Mrs. Thomas W. Phillips in speaking for the Federation of Women's Clubs of this city.

The statement of Mrs. Phillips was based on the purpose of the gift of the poor farm some years ago by Charles Phillips, and the thought that the poor would not be able to use the golf course.

According to the specifications in the deed of the poor farm, which was donated some years ago by Charles Phillips, brother-in-law of Mrs. Phillips, it was given to the county and not to the city alone, and that it was to be used as a poor farm.

This was the intention of Mr. Phillips, she said, in giving the land, and she thinks that the wishes of the donor might be respected.

The Federation of Women's Clubs in this city has found a pressing need for a detention home for wayward girls. Then, too, the Children's Aid Society, said Mrs. Phillips, are striving to place homeless children in good homes. Often a child has to be kept for some few weeks before a home can be found, and there is no place at present that this can be done.

Furthermore, stated Mrs. Phillips, the Margaret Henry Home is crowded to capacity and there is a need for relief in that line of work. The building at the city poor farm would be excellent for all the sorts of work mentioned and in which there is a real need for relief, she said. This would be aiding the poor, which would conform to the idea in mind when the land was donated.

The average man, stated Mrs. Phillips, has no time for golf. After he has worked all day he is too tired for that sort of recreation. Besides, there is quite an investment in buying a golf equipment which he could not afford.

Mrs. Phillips stated that she was heartily in favor of recreation, but that she didn't think the golf course was needed as badly as the need for quarters in aiding the poor.

Spiritualists To Meet In Reunion At Cascade Park

Announcement is made that the Pennsylvania Spiritualists Reunion will be held at Cascade Park, on Saturday, August 4. Pittsburgh, and surrounding cities will be represented. Rev. C. V. Morrow is in charge of arrangements. A program is being arranged. Afternoon meeting will be conducted at 2:30 o'clock

ENJOYABLE REUNION AT CASCADE PARK

The annual Boiler Cleaners reunion of the steam department of the Carnegie Steel Co. New Castle works was held Monday evening July 30 at Billy Glenn's pool Cascade park. The feature of the evening was a beautiful swan dive by M. K. Staley and the wonderful bare-back riding of M. E. Vaughn who with his hands tied behind his back and his eyes blindfolded rode the sea-horse at will.

After the wash a delightful lunch was served in the grove.

The only near accident of the evening was when the little locomotive in the park blowed off steam M. E. Vaughn nearly choked to death on a hamburg sandwich he was trying to get away with.

The wash was enjoyed by the following boiler cleaners, Wilber Mayberry, M. K. Staley, Clifford Smith, Albert Jones, Harold Mayberry, Jas. Doyle, Scott Flaugher, Armer Mezza, John Hitchen, M. E. Vaughn, David Leishman, Earl Jarrett, Lyle Himebaugh.
